I strongly urge you to help the residents who are in this state. With these exorbitant profits and salaries they pay utility companies DO NOT NEED TO RAISE THE RATES when "we the people" are struggling to make ends meet. Please stop this.

It is ridiculous that utility companies continue to get approved raise hikes as people struggle. As their profits rise people are unable to afford living expenses. My electric bill jumped \$150 in the last 2 months. I have the thermostat set at 78° which is reasonable and should not merit that kind of increase. Their CEOs are paid millions. If these companies can pay CEOs that much then they obviously don't need a rate hike. Commissioners are there to protect consumers. Use your God given brains and stop this madness.
