Subject: Reject the FPL rate hike!

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear PSC Commissioners:

I urge you to reject what would be the largest utility rate increase in U.S. history.

Over the past five years, FPL customers have seen their annual bills increase by more than \$400. These ongoing rate hikes hit hardest for low-income families and seniors living on fixed incomes—Floridians who are already struggling to keep up with the rising cost of essentials like gas, housing, and healthcare. Adding another unaffordable rate hike on top of these burdens is unacceptable.

It is especially egregious to ask customers to pay more when FPL has reported more than \$10 billion in profits over the last five years. This proposal does not reflect the needs of everyday Floridians—it reflects the priorities of corporate shareholders and executives looking to maximize returns at the expense of the public.

The Public Service Commission has a duty to ensure that utility rates are just, reasonable, and in the public interest. I respectfully urge you to reject FPL's request to increase the monthly base rate and raise its return on equity. Floridians deserve fair and affordable energy—not price hikes that fuel corporate profits.

Please stand up for Florida's working families, retirees, and vulnerable communities, and say NO to this rate hike.

Thank you,

Sincerely,

Gabriele Schmitt

Please stand up for Florida's working families, retirees, and vulnerable communities, and say NO to this rate hike.

I know FPL pays off the Florida legislature to direct the PSC to let them charge whatever they want. You want campaign money, and it's not easy for you to consider that it is the citizens of Florida, not FPL, who are your constituents. (We will remind you when you run for re-election.) As a frame of reference, I will tell you that Massachusetts, for example, does not permit a minimum monthly bill. My daughter lives there, she and my son-in-law have solar panels, as I do, and often enough, their bill is zero. I create more electricity than I use every day. If you're getting the message that the Florida legislature is useless to Floridians, or their enemy, I won't disagree with you.

Subject: Do not allow special interests to prey on the public with an exorbitant rate hike

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear PSC Commissioners:

I urge you to reject what would be the largest utility rate increase in U.S. history.

Over the past five years, FPL customers have seen their annual bills increase by more than \$400. These ongoing rate hikes hit hardest for low-income families and seniors living on fixed incomes, which the current federal administration seems determined to reduce and who are already struggling to keep up with the rising cost of essentials like gas, housing, and healthcare. Adding another unaffordable rate hike on top of these burdens is unacceptable. That will ultimately reduce the attractive forces at play re Florida's income stream will be most effected...with those who choose to move here as new residents going elsewhere.

It is especially egregious to ask customers to pay more when FPL has reported more than \$10 billion in profits over the last five years. This proposal does not reflect the needs of everyday Floridians—it reflects the priorities of corporate shareholders and executives looking to maximize returns at the expense of the public.

The Public SERVICE Commission has a duty to ensure that utility rates are just, reasonable, and in the public interest. I respectfully urge you to reject FPL's request to increase the monthly base rate and raise its return on equity. Floridians deserve fair and affordable energy—not price hikes that fuel corporate profits.

Please stand up for Florida's working families, retirees, and vulnerable communities, and say NO to this rate hike.

Thank you,

Sincerely,

Gail Tucker-Griffith

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dr. Myechia Minter- Jordan President <http://www.aarp.gov>

Good Day !

Ref : Senior Citizen- US Navy Veteran Feedback. >>>>> (FPL \$ 9B Dollar Rate Increase)<<<<<

Docket # 20210015 FPSC Inquiry # 139858OC

Since the year 2022 our household has been monetarily penalized every month by FPL for our minimum monthly

usage of KWH ? In retrospect the FPSC granted FPL permission to do so without any regard for the justification

of same ? Instead of FPL rewarding, and also commending our household for conserving electrical power we

continue to be monetarily penalized.<<<<<

One would also wonder as to how the FPSC could of granted FPL permission to do so ?<<<<<

In the interim our legitimate request to have the extra charge removed has been irresponsibly overlooked by the FPSC ?

Now FPL is seeking an Outrageous \$ 9 Billion Dollar Rate Increase.<<<<<

In Summation:

Will the FPSC bow to FPL, or will they think twice about what the Greedy Conglomerate is seeking this time ?<<<<<

Thank You.

Respectfully,

Michael J. Walsh

Adding another unaffordable rate hike on top of these burdens is unacceptable.

It is especially egregious to ask customers to pay more when FPL has reported more than \$10 billion in profits over the last five years. This proposal does not reflect the needs of everyday Floridians—it reflects the priorities of corporate shareholders and executives looking to maximize returns at the expense of the public.

The Public Service Commission has a duty to ensure that utility rates are just, reasonable, and in the public interest. I respectfully urge you to reject FPL's request to increase the monthly base rate and raise its return on equity. Floridians deserve fair and affordable energy—not price hikes that fuel corporate profits.

Please stand up for Florida's working families, retirees, and vulnerable communities, and say NO to this rate hike.

Thank you,
Sameerah H.

Sincerely,

Sam H

Subject: Reject the FPL rate hike!

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Dear PSC Commissioners:

I urge you to reject what would be the largest utility rate increase in U.S. history.

Over the past five years, FPL customers have seen their annual bills increase by more than \$400. These ongoing rate hikes hit hardest for low-income families and seniors living on fixed incomes—Floridians who are already struggling to keep up with the rising cost of essentials like gas, housing, and healthcare. Adding another unaffordable rate hike on top of these burdens is unacceptable.

It is especially egregious to ask customers to pay more when FPL has reported more than \$10 billion in profits over the last five years. This proposal does not reflect the needs of everyday Floridians—it reflects the priorities of corporate shareholders and executives looking to maximize returns at the expense of the public.
