Subject: TECO Bill

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

TECO has raised our rates several times plus adding on SIZABLE extra fees each month. I am a senior citizen living on social security and can not afford all of these extra increases and fees especially in the summer. They should NOT be allowed to raise rates in the summer or add fees. PLUS we the consumers should NOT have to pay for all of the SOLAR FARMS. My bill from last July to this July using the same amount of electricity went up over \$70 for July. I CAN NOT AFFORD THIS nor can anyone else. My social security raise was 3% however when everything else goes up 10% - 30% - you suddenly don't have money for food. But can't get food stamps because you are just over the limit. Something needs to be done here FAST. I can't wait til they release the free energy and then these plants like TECO will go under.
