Subject: Grenelefe Water Upgrade

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

We are writing to urge the commission to reject the staff recommendations to place any cost for water treatment plant upgrades on existing Grenelefe property owners and residents. We recommend that the utility plant owner, Scott House, be allowed to recoup the \$20 million in upgrades from the developers of the new construction in Grenelefe through new connection fees.

Grenelefe and water utility infrastructure were left in disrepair by the Westgate Corporation. The current residents have suffered enough. They have sat through numerous Polk County Commission meeting where it was agreed that the cost of these upgrades would be placed on new home construction. We ask that this agreement be honored accordingly.

Thank you

Sincerely,
