We are submitting this email to urge the commission to please reject the staff recommendations for the placement of any burden of this treatment plant upgrade on the current residents of our community, Grenelefe. We would ask that you instead allow the utility owner, Frederick Scott House to recoup the \$20 million in upgrades from the new construction that he is doing in Grenelefe via new connection fees and the CDD that he has already gotten approved through the county. When he purchased the utility from Westgate Corporation, it was left in disrepair and we as a long time residents have suffered enough. We have sat through numerous Polk County Commission meetings where he did get approval for a CDD that would cover any updates to his Water Utility. We are writing you to ask you to please honor the agreement that is already in place.

Thank You,
Don and Lisa Fousek
