Comment: Why should I pay from a new plant they needed to service the new homes being built. Why was not this incorporated into the CDD funding that was issued for the infrastructure of the new Real Estate Project. Most if any of us and afford and increase bill of 10X. They just got approval, and we are paying 140% of previous payments we made. Supposedly their staff made the computation for the new 10x monthly payments request. Will the commission request an independent study of what this new Real Estate Projects needs and costs v/s what their in-house figures and request.
