Comments:

Please stop the FPL increases. My bill went up \$25 / month - that's a whopping 10 percent increase - after the hurricanes last year. Never came down even though reports said it was one-time recovery surcharge. I actually used less electric this past month than the same time/duration last year. They have money in their coffers; I do not. They need to trim their budget to pay for other people's solar projects and other work rather than charge me. I'd have to trim my budget to pay for other people's solar when I can't even afford to install it.
