I have live at the same address for the last 19 years never have had a bill from Teco at 320 dollars. The last couple of months it has been in the lows 200 this month it went all the way up to 320. I only have windows AC. Why are we been charge so much for electricity? It seems that every month it just keep going up. Who regulates and makes sure that Teco is not overcharging us the tax payers.
