7. AT&T LOCAL EXCHANGE SERVICES

7.9 AT&T Local Exchange Services-ISDN PRI (Cont'd)

Call-by-Call Service Selection provides an option to the Dedicated B Channel Configuration allowing B channels to be configured to access multiple services on a per-call basis. With this optional feature, separate facilities are not needed for individual services such as DID and DOD. Separately obtained customer premise equipment is required to signal the local serving central office as to what type of services to access for each call.

AT&T Local Exchange Services-ISDN PRI is offered in conjunction with the following long distance services provided by AT&T and are described in this price list: AT&T Business Network and OneNet Option.

ISDN PRI may be provisioned as a standalone service or provisioned over an existing or new AT&T ACCU-Ring facility, Dedicated Entrance Facility (DEF) or Ultravailable Ring (UVN). Rates and charges are listed in the RATE SCHEDULE.

At the Company's discretion, the Company may reconfigure the Customer's service to another service provided by AT&T and any of its affiliates authorized to provide you with AT&T service prior to November 17, 2005, if the Customer's usage meets one or more of the following criteria: (1) equals or exceeds 90% utilization for inbound calling on trunks configured for Inbound and Outbound calling functionality, (2) equals or exceeds an average call duration of 10 minutes per call for inbound calling, (3) equals or exceeds CCS (one hundred call seconds or one hundred seconds of telephone conversation) loading of 32 CCS, or (4) equals or exceeds 300,000 minutes of use for inbound calling per DS-1 facility. The Customer will be charged rates for the alternative service as defined in the applicable price list. The Company reserves the right to audit the Customer's usage for the above conditions.

Upon detection of any of the four conditions stated above, the Company will inform the Customer by written notice of its intention to reconfigure the Customer's service and identifying the alternative service available for the Customer's calling pattern. First Class U.S. Mail will send written notice at least 30 days prior to the actual reconfiguration of service. The Customer must either return the written notice indicating its acceptance of the reconfiguration and its associated rates or may terminate the service commitment or contract. Notice of the Customer's desire to accept the alternative service or cancel the service commitment or contract must be provided in writing to the Company prior to the end of the 30-day notice period. If no notice is received the service will be terminated.

7. AT&T LOCAL EXCHANGE SERVICES

7.10 AT&T Local Exchange Services-DS-1 Digital Facilities

Description

AT&T Local Exchange Services-DS-1 Digital Facilities is a digital service providing dedicated connections from an end user's digital Private Branch Exchange (PBX), key system, or hybrid device to the AT&T Local Service Switch Port.

The Customer may opt to utilize AT&T Local Exchange Services-DS-1 Digital Facilities for outgoing calls only (DOD), incoming calls terminated directly to an end user behind a PBX or capable key system (DID), a combination of both incoming calls to an attendant and outgoing calls (Two-way Combo) or a combination of both incoming calls directly to an end user and outgoing calls (DID/DOD). When DID or DID/DOD service is ordered, direct inward dialing (DID) numbers must be purchased from the Company. AT&T Local Exchange Services-DS-1 Digital Facilities is available where facilities and operating systems exist. AT&T Local Exchange Services-DS-1 Digital Facilities includes Touch-Tone.

DS-1 Digital Facilities may be provisioned as a stand alone service or provisioned over an existing or new AT&T ACCU-Ring facility, Dedicated Entrance Facility (DEF) or Ultravailable Ring (UVN). Rates and charges are listed in the RATE SCHEDULE.

Customers utilizing AT&T Local Exchange Services-DS-1 Digital Facilities must subscribe to a sufficient number of DS1 facilities to handle adequately the volume of traffic offered (received or originated) without interfering with any of the services offered by the Company. The number of DS1 facilities required to handle adequately such traffic will be determined by Company measurements. In the event that an inadequate number of DS1 facilities causes interference, the Company shall have the right to discontinue service without prior notification to the Customer.

AT&T Local Exchange Services-DS-1 Digital Facilities is offered in conjunction with an associated long distance service offering provided by AT&T: AT&T Business Network and OneNet Option.

At the Company's discretion, the Company may reconfigure the Customer's service to another service provided by AT&T and any of its affiliates authorized to provide you with AT&T service prior to November 17, 2005, if the Customer's usage meets one or more of the following criteria: (1) equals or exceeds 90% utilization for inbound calling on trunks configured for Inbound and Outbound calling functionality, (2) equals or exceeds an average call duration of 10 minutes per call for inbound calling, (3) equals or exceeds CCS (one hundred call seconds or one hundred seconds of telephone conversation) loading of 32 CCS, or (4) equals or exceeds 300,000 minutes of use for inbound calling per DS-1 facility. The Customer will be charged rates for the alternative service as defined in the applicable price list. The Company reserves the right to audit the Customer's usage for the above conditions.
