 RE: Request for Emergency Item to be Added to March 30, 1993 Agenda

*OK JTD*

Attached is a recommendation addressing Southern Bell's March 8, 1993 Motion to Reinstigate Credit, filed in DN 920260-TL, the Company's current rate case. A monthly credit on customer bills, totalling \$48 million annually, was initially established in DN 880069-TL. Permanent disposition is to take place in the rate case. The credit ended on December 31, 1992 per Commission order. Southern Bell has now filed to reinstitute the credit since hearings in the rate case have been delayed until January, 1994.

Staff would like to bring its recommendation on this motion to agenda as soon as possible in order to minimize the accumulation of excess funds as well as to provide for rate reductions to be distributed to customers as soon as practicable. In addition, we have learned that Commissioner Clark, the prehearing officer in this case, will not be at the April 6 agenda. For these reasons, we request that this recommendation be brought as an emergency item to the March 30 agenda.

We plan to submit the recommendation to the Division of Records and Reporting no later than Wednesday, March 24.
