POST HEARING STATEMENT OF ISSUES AND POSITIONS OF
POLO PARK RESIDENTS

Pursuant to Rule 25-22.056(3), F.A.C. and the Prehearing order issued March 25,1996, the Polo Park Petitioners file this Post-Hearing Statement of Issues and Positions.

BASIC POSITION

*** We feel that because of our unique four county convergence area, with a burgeoning growth rate, that special consideration should be given to relieve us from each call being billed on a long distance basis when we call across county lines just a few miles away.

ISSUE 1: Is there a sufficient community of interest on the routes listed in Table A to justify surveying for non-optional extended area service as currently defined in the Commission rules, or implementing an alternative interLATA toll plan?

*** Because of the unique location of Polo Park and the surrounding 32 residential communities, we feel this a sufficient community of interest.

ISSUE 2: What other community of interest factors should be considered in determining if either an optional or nonoptional toll alternative should ne implemented on these routes.

*** Since no calling volume records are available from any telephone companies,we submitted our February 19,1996 letter with testimony and exhibits the marked Exhibit "A" shows, in short period of time, pattern of usage from small cross section of users typical usage to

routes in question.

ISSUE 3: If a sufficient community of interest is found on any of these routes, what is the economic impact of each plan on the company?

- a) EAS with 25/25 plan and regrouping
- b) Alternative InterLATA toll plan; and
- c) Other(specify)

*** This economic issue, it would appear to us, can only be addressed by the telephone companies represented in this docket.

ISSUE 4: Should subscribers be required to pay an additive as a prerequisite to surveying for extended area service or an alternative interLATA toll plan? If so, how much of a payment is required and how long should it last?

*** We do not feel an additive is in order under any of the plans.

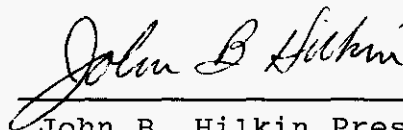

ISSUE 5: If a sufficient community of interest is found, what are the appropriate rates and charges for the plan to be implemented on these routes?

*** Polo Park and surrounding communities are not in a position to address this issue.

ISSUE 6: If extended area service or an alternative interLATA toll plan is determined to be appropriate, should the customers be surveyed?

*** Polo Park is not in a position to answer this question.

POLO PARK HOMEOWNERS ASSN.

John B. Hilkin, President
