SENIOR COUNSEL

June 14, 1999

Ms. Blanca S. Bayó, Director
Division of Records and Reporting
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, Florida 32399-0850

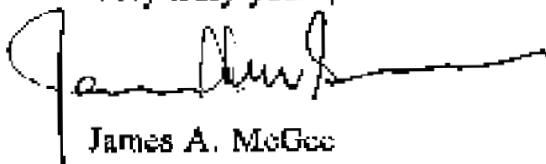

Re: Docket No. 990001-EI; GPIF Reward/Penalty for
April - September 1998 and October - December 1998.

Dear Ms. Bayó:

Enclosed for filing in the subject docket are an original and ten copies of the direct testimony and exhibits of Rebecca J. McClintock for the GPIF reward/penalty periods of April - September, 1998 and October - December, 1998.

Please acknowledge your receipt of the above filing on the enclosed copy of this letter and return to the undersigned. Also enclosed is a 3.5 inch diskette containing the above-referenced document in WordPerfect format. Thank you for your assistance in this matter.

Very truly yours,

James A. McGee

**Re: GPIF Reward/Penalty Amount for
April through September 1998**

**DIRECT TESTIMONY OF
REBECCA J. MCCLINTOCK**

- 1 **Q. Please state your name and business address.**
- 2 **A. My name is Rebecca J. McClintock. My business address is P. O. Box**
3 **14042, St. Petersburg, Florida 33733.**
- 4
- 5 **Q. By whom are you employed and in what capacity?**
- 6 **A. I am employed by Florida Power Corporation as a Principal Engineer in**
7 **Resource Planning, Financial Services.**
- 8
- 9 **Q. What are your responsibilities as Principal Engineer?**
- 10 **A. As a Principal Engineer, I am responsible for compiling and reporting**
11 **various operational statistics regarding the Company's generating system.**
12 **In particular, my duties include the preparation of the information and**
13 **material required by the Commission's GPIF mechanism.**
- 14
- 15 **Q. What is the purpose of your testimony?**
- 16 **A. The purpose of my testimony is to describe the calculation of the Company's**
17 **Generation Performance Incentive Factor (GPIF) reward/penalty amount for**
18 **the period of April through September 1998. This was developed by**

1 comparing the actual performance of the Company's seven GPIF generating
2 units to the approved targets set for these units prior to the period.

3

4 **Q. Do you have an exhibit to your testimony in this proceeding?**

5 A. Yes, under my direction an exhibit (RJM-1) has been prepared consisting
6 of the numbered sheets which are attached to my prepared testimony. The
7 exhibit contains the schedules required by the GPIF Implementation
8 Manual, which support the development of the incentive amount. I have
9 also included other data forms to supplement the required schedules.

10

11 **Q. What GPIF incentive amount have you calculated for this period?**

12 A. I have calculated the Company's GPIF incentive amount to be a reward of
13 \$340,289. This amount was developed in a manner consistent with the
14 GPIF Implementation Manual. Sheet 1 of my exhibit shows the calculation
15 of system GPIF points and the corresponding reward. The summary of
16 weighted incentive points earned by each individual unit can be found on
17 Sheet 3.

18

19 **Q. How were the incentive points for equivalent availability and heat rate
20 calculated for the individual GPIF units?**

21 A. The calculation of incentive points is made by comparing the adjusted
22 actual performance data for equivalent availability and heat rate to the
23 target performance indicators for each unit. This comparison is shown on

1 the Generating Performance Incentive Points Table found on Sheets 8
2 through 14 of my exhibit.

3

4 **Q. Why Is It necessary to make adjustments to the actual performance**
5 **data for comparison with the targets?**

6 **A. Adjustments to the actual equivalent availability and heat rate data are**
7 **necessary to allow their comparison with the "target" Point Tables exactly**
8 **as approved by the Commission prior to the period. These adjustments are**
9 **described in the Implementation Manual and are further explained by a Staff**
10 **memorandum, dated October 23, 1981, directed to the GPIF utilities. The**
11 **adjustments to actual equivalent availability concern primarily the**
12 **differences between target and actual planned outage hours, and are**
13 **shown on Sheet 6 of my exhibit. The heat rate adjustments concern the**
14 **differences between the target and actual Net Output Factor (NOF), and are**
15 **shown on Sheet 7. The methodology for both the equivalent availability and**
16 **heat rate adjustments are explained in the Staff memorandum.**

17

18 **Q. Have you provided the as-worked planned outage schedules for the**
19 **Company's GPIF units to support your adjustments to actual**
20 **equivalent availability?**

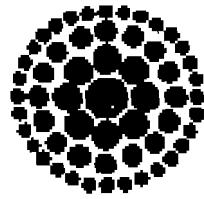

21 **A. Yes. Sheet 22 of my exhibit summarizes every planned outage experienced**
22 **by the Company's GPIF units during the period. Sheets 23 and 24 present**
23 **an as-worked critical path chart for each individual planned outage.**

24

1 Q. Does this conclude your testimony?

2 A. Yes.

1 **Q. Please state your name and business address.**

2 **A. My name is Rebecca J. McClintock. My business address is P. O. Box**
3 **14042, St. Petersburg, Florida 33733.**

4

5 **Q. By whom are you employed and in what capacity?**

6 **A. I am employed by Florida Power Corporation as a Principal Engineer in**
7 **Resource Planning, Financial Services.**

8

9 **Q. What are your responsibilities as Principal Engineer?**

10 **A. As a Principal Engineer, I am responsible for compiling and reporting**
11 **various operational statistics regarding the Company's generating system.**
12 **In particular, my duties include the preparation of the information and**
13 **material required by the Commission's GPIF mechanism.**

14

15 **Q. What is the purpose of your testimony?**

16 **A. The purpose of my testimony is to describe the calculation of the Company's**
17 **Generation Performance Incentive Factor (GPIF) reward/penalty amount for**
18 **the period of October through December 1998. This was developed by**

1 comparing the actual performance of the Company's seven GPIF generating
2 units to the approved targets set for these units prior to the period.

3

4 **Q. Do you have an exhibit to your testimony in this proceeding?**

5 A. Yes, under my direction an exhibit (RJM-1) has been prepared consisting
6 of the numbered sheets which are attached to my prepared testimony. The
7 exhibit contains the schedules required by the GPIF Implementation
8 Manual, which support the development of the incentive amount. I have
9 also included other data forms to supplement the required schedules.

10

11 **Q. What GPIF Incentive amount have you calculated for this period?**

12 A. I have calculated the Company's GPIF incentive amount to be a reward of
13 \$706.851. This amount was developed in a manner consistent with the
14 GPIF Implementation Manual. Sheet 1 of my exhibit shows the calculation
15 of system GPIF points and the corresponding reward. The summary of
16 weighted incentive points earned by each individual unit can be found on
17 Sheet 3.

18

19 **Q. How were the incentive points for equivalent availability and heat rate
20 calculated for the individual GPIF units?**

21 A. The calculation of incentive points is made by comparing the adjusted
22 actual performance data for equivalent availability and heat rate to the
23 target performance indicators for each unit. This comparison is shown on

1 the Generating Performance Incentive Points Table found on Sheets 8
2 through 14 of my exhibit.

3

4 **Q. Why is it necessary to make adjustments to the actual performance**
5 **data for comparison with the targets?**

6 A. Adjustments to the actual equivalent availability and heat rate data are
7 necessary to allow their comparison with the "target" Point Tables exactly
8 as approved by the Commission prior to the period. These adjustments are
9 described in the Implementation Manual and are further explained by a Staff
10 memorandum, dated October 23, 1981, directed to the GPIF utilities. The
11 adjustments to actual equivalent availability concern primarily the
12 differences between target and actual planned outage hours, and are
13 shown on Sheet 6 of my exhibit. The heat rate adjustments concern the
14 differences between the target and actual Net Output Factor (NOF), and are
15 shown on Sheet 7. The methodology for both the equivalent availability and
16 heat rate adjustments are explained in the Staff memorandum.

17

18 **Q. Have you provided the as-worked planned outage schedules for the**
19 **Company's GPIF units to support your adjustments to actual**
20 **equivalent availability?**

21 A. Yes. Sheet 22 of my exhibit summarizes every planned outage experienced
22 by the Company's GPIF units during the period. Sheets 23 and 24 present
23 an as-worked critical path chart for each individual planned outage.

1 Q. Does this conclude your testimony?

2 A. Yes.
