RE: Dissolution of TelMex-Sprint (TSC) and Cancellation of Certificate

Dear Ms. Bayo:

In accordance with FPSC Rule 25-24.474, Telmex/Sprint Communications, L.L.C. (TSC) requests that you cancel TSC certificate number 5346. TSC does not have any customers located in Florida.

Telmex/Sprint Communications, L.L.C. (TSC) is a 50-50 joint venture between Teléfonos de Mexico, S.A. de C.V. ("Telmex") and Sprint Corporation. In 1997, TSC began providing U.S. domestic and international services as a switchless reseller to U.S. residents. Sprint Communications Company Limited Partnership ("Sprint") is TSC's underlying facilities-based carrier.

On May 4, 1999, Telmex and Sprint announced that they were dissolving the joint venture. Under the terms of the dissolution, Sprint will absorb TSC's subscriber base and, thus, such subscribers will receive service directly from Sprint as opposed to receiving Sprint service through TSC. Sprint sent letters to TSC's subscribers informing them that TSC will discontinue service and that the service they have received from TSC has always been physically provided by Sprint. If the customers stay with Sprint, they will continue to receive the same service as provided by TSC at the same rates, terms and conditions. The only difference is that the customers will be billed by Sprint rather than TSC. Further, they do not have to do anything to receive Sprint service and will be automatically converted to Sprint on July 16, 1999. Customers that do not want Sprint service should contact their Local Exchange Company to change carriers.

TSC will pay the Florida Regulatory Assessment Fee in accordance with Commission regulations for the period of time that the certificate was in effect.
