====NOTE=====7/07/99==9:06am=====
I am e-mailing you with a specific question regarding the title of this docket. Although there has been a lot of talk about the AC problem in the Keys, no official FPSC action has been taken to date and the procedural CASR schedule has yet to be finalized. However, it now looks like whatever solution is instituted will impact not only customers in the Keys but also customers in the mainland portion of the 305/786 AC (i.e., the docket title needs to reflect the whole region). Therefore, my question is simply how does one go about changing the title of a docket. LEG thinks there is probably an SOP or APM to cover this topic but I thought you might have addressed this subject in the past. Can you help?

It's actually very simple. Send an e-mail to me asking that the title be changed and including the wording for the new title. I'll print the e-mail, document number it, and change the title.

New title: Request for review of proposed numbering plan relief for the 305/786 area code - Dade and Monroe Counties (Keys region)

.....
I think you need to remove "Keys region".

I included it because part of Monroe county is in the 941 area code. Am I missing something?

.....
Well then it should be:

Dade County and Monroe County/Keys Region

os something like that.

I hope you haven't made any official change yet because it looks like legal doesn't like my new title. I don't have the "will" to fight Will on this point. Is it possible that the title could be (re)worded to read:

Request for review of proposed numbering plan relief for the 305/786 area code - Dade County and Monroe County/Keys Region

It hasn't been changed yet, so we'll use THESE words when we change it.

Also, I am going to add Dade and Monroe County officials to the docket mailing list so they'll receive orders and any notices issued in the docket.
