Re: Attached Notice of Application for Initial Certification of Authorization  
For Water and Wastewater Certification By: Intercoastal Utilities.

If this application is for the Intercoastal Wastewater treatment plant located just south of the southern Sawgrass Country Club entrance, (next to Sawgrass Storage) Please be advised of a noise problem that has developed due to the new pumps installed. Approximately 2 months ago, when these pumps were installed my neighborhood has been subjected to a very high pitched whine that is best described as the sound you would hear in a grade B movie where they were trying to brainwash someone or drive them crazy. If you try to work outside in your yard while this is going on it is an instant headache nor can you have your windows open. I have spoken with Mr. Mike James @ Intercoastal Utility regarding this and he has assured me that they are aware of the noise and they are working on it but to this day the noise continues. The residents of Fairfield do not feel any Certification should be granted until this noise situation is corrected.

Best Regard,

George J. Ely
