Dear Director.

I do hereby object to the application of United Water Florida, Inc. to extend their service area located in Nassau County, Florida. As set forth in the legal notice on page 6c of the Ferandina Beach Newleader dated 8-30-2000, on the following grounds:

1. The area sought in the extension is too broad.
2. The area sought in the extension is low density. There is no demand for this service.
3. If granted, this service will contribute to "urban sprawl" which is a violation of our Comprehensive Plan.
4. This service is being sought to accommodate one developer and if granted may, now or in the future, create incredible financial hardships for every man, woman and child in my community. Most of the people that live in these areas are life long residents and alot of them are on fixed incomes. So were is the money going to come from to hook these systems up? We are being told it will cost between \$8,000 and \$15,000 dollars per house to hook up. And we want to have a say about it. The County of Nassau has already sold us out. It took the county 9 minutes to appove the plans at there last meeting with no discussion with the public. And, come to find out the current property appraiser, the Amelia Island Plantaion, and half if not more of the county commisioners are all in on this project, for personal gain. Not for the well being of the community. We fill we are being sacrificed for others personal gain. We do not need this service, nor do we want this service, nor can we afford it.....
5. What information that has been given to the puplic is all conflicting, from the county coordinator the county planner the county engineer, the Health Department, county commisioners, and the United Water of Florida. We do not know whom to believe.
