RECORDS AND REPORTING Marshall M. Criser III Regulatory Vice President

October 27, 2000

Mrs. Blanca S. Bayo Director, Division of Records and Reporting Florida Public Service Commission 2540 Shumard Oak Boulevard Tallahassee, Florida 32399

001640-TP

Re: Approval of an Amendment to the Interconnection Agreement Negotiated by BellSouth Telecommunications, Inc. ("BellSouth") and CRG International, Inc. d/b/a Network One pursuant to Sections 251, 252 and 271 of the Telecommunications Act of 1996

Dear Mrs. Bayo:

Pursuant to section 252(e) of the Telecommunications Act of 1996, BellSouth and CRG International, Inc. d/b/a Network One are submitting to the Florida Public Service Commission an amendment to their negotiated agreement for the interconnection of their networks, the unbundling of specific network elements offered by BellSouth and the resale of BellSouth's telecommunications services to CRG International, Inc. d/b/a Network One The Commission approved the initial agreement between the companies in Order No. 00-0167-FOF-TP issued January 24, 2000 in Docket 991725-TP. This amendment incorporates Enhanced Extended Links (EELs) into the interconnection agreement

Pursuant to section 252(e) of the Act, the Commission is charged with approving or rejecting the negotiated agreement between BellSouth and CRG International, Inc. d/b/a Network Onewithin 90 days of its submission. The Act provides that the Commission may only reject such an agreement if it finds that the agreement or any portion of the agreement discriminates against a telecommunications carrier not a party to the agreement or the implementation of the agreement or any portion of the agreement is not consistent with the public interest, convenience and necessity. Both parties aver that neither of these reasons exist as to the agreement they have negotiated and therefore, are very hopeful that the Commission shall approve their agreement.

Very truly yours,

Marshall M. Criser TIT
Regulatory Vice President

FPSC-RECORDS/REPORTING

ATTACHMENT TO TRANSMITTAL LETTER

The Agreement entered into by and between CRG International, Inc. d/b/a Network One and BellSouth Telecommunications, Inc., dated 10/11/2000, for the states of Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina and Tennessee consists of the following:

ITEM	NO. PAGES
Amendment	5
Exhibit A	23
TOTAL	28

AMENDMENT TO THE

AGREEMENT BETWEEN

CRG INTERNATIONAL, INC. d/b/a NETWORK ONE BELLSOUTH TELECOMMUNICATIONS, INC. DATED OCTOBER 25, 1999

Pursuant to this Agreement, (the "Amendment"), CRG International, Inc. d/b/a Network One ("Network One") (Louisiana Certification Number TSP00299), and BellSouth Telecommunications, Inc. ("BellSouth"), hereinafter referred to collectively as the "Parties," hereby agree to amend that certain Interconnection Agreement between the Parties dated October 25, 1999 ("Agreement").

WHEREAS, BellSouth and Network One entered into an Interconnection Agreement on October 25, 1999, and;

NOW THEREFORE, in consideration of the mutual provisions contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby covenant and agree as follows:

- 1. For purposes of this Amendment, references to "Currently Combined" network elements shall mean that such network elements are in fact already combined by BellSouth in the BellSouth network to provide service to a particular end user at a particular location.
- 2. Enhanced Extended Links
- Where facilities permit and where necessary to comply with an effective FCC and/or State Commission order, or as otherwise mutually agreed by the Parties, BellSouth shall offer access to loop and transport combinations, also known as the Enhanced Extended Link ("EEL") as defined in Section 2.2 below.
- 2.2 Subject to Section 2.3 below, BellSouth will provide access to the EEL in the combinations set forth in Section 2.4 following. This offering is intended to provide connectivity from an end user's location through that end user's SWC to Network One's POP serving wire center. The circuit must be connected to Network One's switch for the purpose of provisioning telephone exchange service to Network One's end-user customers. The EEL will be connected to Network One's facilities in Network One's collocation space at the POP SWC, or Network One may purchase BellSouth's access facilities between Network One's POP and Network One's collocation space at the POP SWC.
- 2.3 BellSouth shall provide EEL combinations to Network One in Georgia regardless of whether or not such EELs are Currently Combined. In all other states, BellSouth shall make available to Network One those EEL combinations described in Section 2.4 below only to the extent such combinations are Currently Combined.

Furthermore, BellSouth will make available EEL combinations to Network One in density Zone 1, as defined in 47 C.F.R. 69.123 as of January 1, 1999, in the Atlanta, GA; Miami, FL; Orlando, FL; Ft. Lauderdale, FL; Charlotte-Gastonia-Rock Hill, NC; Greensboro-Winston Salem-High Point, NC; Nashville, TN; and New Orleans, LA, MSAs regardless of whether or not such EELs are Currently Combined. Except as stated above, EELs will be provided to Network One only to the extent such network elements are Currently Combined.

	·
2.4	EEL Combinations
2.4.1	DS1 Interoffice Channel + DS1 Channelization + 2-wire VG Local Loop
2.4.2	DS1 Interoffice Channel + DS1 Channelization + 4-wire VG Local Loop
2.4.3	DS1 Interoffice Channel + DS1 Channelization + 2-wire ISDN Local Loop
2.4.4	DS1 Interoffice Channel + DS1 Channelization + 4-wire 56 kbps Local Loop
2.4.5	DS1 Interoffice Channel + DS1 Channelization + 4-wire 64 kbps Local Loop
2.4.6	DS1 Interoffice Channel + DS1 Local Loop
2.4.7	DS3 Interoffice Channel + DS3 Local Loop
2.4.8	STS-1 Interoffice Channel + STS-1 Local Loop
2.4.9	DS3 Interoffice Channel + DS3 Channelization + DS1 Local Loop
2.4.10	STS-1 Interoffice Channel + DS3 Channelization + DS1 Local Loop
2.4.11	2-wire VG Interoffice Channel + 2-wire VG Local Loop
2.4.12	4wire VG Interoffice Channel + 4-wire VG Local Loop
2.4.13	4-wire 56 kbps Interoffice Channel + 4-wire 56 kbps Local Loop
2.4.14	4-wire 64 kbps Interoffice Channel + 4-wire 64 kbps Local Loop
2.5	EEL combinations for DS1 level and above will be available only when Network One provides and handles at least one third of the end user's local traffic over the facility provided. In addition, on the DS1 loop portion of the combination, at least fifty (50) percent of the activated channels must have at least five (5) percent local voice traffic individually and, for the entire DS1 facility, at least ten (10) percent of the traffic must be local voice traffic.
2.6	When combinations of loop and transport network elements include multiplexing, each of the individual DS1 circuits must meet the above criteria.

Special Access Service Conversions

2.7

- 2.7.1 Network One may not convert special access services to combinations of loop and transport network elements, whether or not Network One self-provides its entrance facilities (or obtains entrance facilities from a third party), unless Network One uses the combination to provide a significant amount of local exchange service, in addition to exchange access service, to a particular customer. To the extent Network One requests to convert any special access services to combinations of loop and transport network elements at UNE prices, Network One shall provide to BellSouth a letter certifying that Network One is providing a significant amount of local exchange service (as described in this Section) over such combinations. The certification letter shall also indicate under what local usage option Network One seeks to qualify for conversion of special access circuits. Network One shall be deemed to be providing a significant amount of local exchange service over such combinations if one of the following options is met:
- 2.7.1.1 Network One certifies that it is the exclusive provider of an end user's local exchange service. The loop-transport combinations must terminate at Network One's collocation arrangement in at least one BellSouth central office. This option does not allow loop-transport combinations to be connected to BellSouth's tariffed services. Under this option, Network One is the end user's only local service provider, and thus, is providing more than a significant amount of local exchange service. Network One can then use the loop-transport combinations that serve the end user to carry any type of traffic, including using them to carry 100 percent interstate access traffic; or
- 2.7.1.2 Network One certifies that it provides local exchange and exchange access service to the end user customer's premises and handles at least one third of the end user customer's local traffic measured as a percent of total end user customer local dialtone lines; and for DS1 circuits and above, at least 50 percent of the activated channels on the loop portion of the loop-transport combination have at least 5 percent local voice traffic individually, and the entire loop facility has at least 10 percent local voice traffic. When a loop-transport combination includes multiplexing, each of the individual DS1 circuits must meet this criteria. The loop-transport combination must terminate at Network One's collocation arrangement in at least one BellSouth central office. This option does not allow loop-transport combinations to be connected to BellSouth tariffed services; or
- 2.7.1.3 Network One certifies that at least 50 percent of the activated channels on a circuit are used to provide originating and terminating local dialtone service and at least 50 percent of the traffic on each of these local dialtone channels is local voice traffic, and that the entire loop facility has at least 33 percent local voice traffic. When a loop-transport combination includes multiplexing, each of the individual DS1 circuits must meet this criteria. This option does not allow loop-transport combinations to be connected to BellSouth's tariffed services. Under this option, collocation is not required. Network One does not need to provide a defined portion of the end user's local service, but the active channels on any loop-

transport combination, and the entire facility, must carry the amount of local exchange traffic specified in this option.

- 2.7.2 In addition, there may be extraordinary circumstances where Network One is providing a significant amount of local exchange service, but does not qualify under any of the three options set forth in Section 2.7.1. In such case, Network One may petition the FCC for a waiver of the local usage options set forth in the June 2, 2000 Order. If a waiver is granted, then upon Network One's request the Parties shall amend this Agreement to the extent necessary to incorporate the terms of such waiver for such extraordinary circumstance.
- BellSouth may at its sole discretion audit Network One records in order to verify the 2.7.3 type of traffic being transmitted over combinations of loop and transport network elements. The audit shall be conducted by a third party independent auditor, and Network One shall be given thirty days written notice of scheduled audit. Such audit shall occur no more than one time in a calendar year, unless results of an audit find noncompliance with the significant amount of local exchange service requirement. In the event of noncompliance, Network One shall reimburse BellSouth for the cost of the audit. If, based on its audits, BellSouth concludes that Network One is not providing a significant amount of local exchange traffic over the combinations of loop and transport network elements, BellSouth may file a complaint with the appropriate Commission, pursuant to the dispute resolution process as set forth in the Interconnection Agreement. In the event that BellSouth prevails, BellSouth may convert such combinations of loop and transport network elements to special access services and may seek appropriate retroactive reimbursement from Network One.
- 2.7.4 Network One may convert special access circuits to combinations of loop and transport UNEs pursuant to the terms of this Section and subject to the termination provisions in the applicable special access tariffs, if any.
- 2.8 Rates
- 2.8.1 Georgia
- 2.8.1.1 The non-recurring and recurring rates for the EEL Combinations of network elements set forth in 2.4 whether Currently Combined or new, are as set forth in Exhibit A of this Amendment.
- 2.8.1.2 On an interim basis, for combinations of loop and transport network elements not set forth in Section 2.4, where the elements are not Currently Combined but are ordinarily combined in BellSouth's network, the non-recurring and recurring charges for such UNE combinations shall be the sum of the stand-alone non-recurring and recurring charges of the network elements which make up the combination. These interim rates shall be subject to true-up based on the Commission's review of BellSouth's cost studies.

- 2.8.1.3 To the extent that Network One seeks to obtain other combinations of network elements that BellSouth ordinarily combines in its network which have not been specifically priced by the Commission when purchased in combined form, Network One, at its option, can request that such rates be determined pursuant to the Bona Fide Request/New Business Request (NBR) process set forth in the Agreement.
- 2.8.2 All Other States
- 2.8.2.1 Subject to Section 2.2 and 2.3 preceding, for all other states, the non-recurring and recurring rates for the Currently Combined EEL combinations set forth in Section 2.4 and other Currently Combined network elements will be the sum of the recurring rates for the individual network elements plus a non recurring charge set forth in Exhibit A of this Amendment.
- 2.8.3 Multiplexing
- 2.8.3.1 Where multiplexing functionality is required in connection with loop and transport combinations, such multiplexing will be provided at the rates and on the terms set forth in this Amendment.
- All of the other provisions of the Agreement, dated October 25, 1999, shall remain in full force and effect.
- Either or both of the Parties is authorized to submit this Amendment to the respective state regulatory authorities for approval subject to Section 252(e) of the Federal Telecommunications Act of 1996.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to be executed by their respective duly authorized representatives on the date indicated below.
