**INITIAL COMMENTS OF THE CITY OF FORT LAUDERDALE CONCERNING  
RULE NO. 25-6.115**

---

The City of Fort Lauderdale submits the following Initial Comments concerning Rule 25-6.115, Facility Charges for Conversion of Existing Overhead Investor-Owned Distribution Facilities:

A. Staff of the City of Fort Lauderdale is concerned that the proposed wording of the rule is open to the interpretation that undergrounded facilities paid for by parties other than an investor owned utility [IOU], [eg a municipality or its residents] would automatically be owned by the IOU. City staff is seeking clarification of this issue and confirmation as to whether the above interpretation is correct. However, nothing in this comment should be construed as meaning that any decision has been taken by the City Commission that future undergrounded facilities should be in the ownership of organizations other than the IOU. City's staff concern at this point is to ensure that ownership options for underground facilities are left open.

Respectfully submitted this 11<sup>th</sup> day of August, 2006.
