

Table 1: Traditional Retail Switched Access Lines on a Voice-Grade Equivalent (VGE) Basis

**REDACTED**

080000-0T

Company Name:

Company Code\*:

\* Your Company code is shown on the label affixed to the envelope in which this was mailed and on the cover letter.

**THIS TABLE IS TO ONLY CAPTURE TRADITIONAL RETAIL SWITCHED ACCESS LINES. DO NOT INCLUDE LINES REPORTED IN TABLE 5.**

Complete Table 1 if you provided voice telephone service to Florida end users via one or more voice-grade equivalent (VGE) lines or fixed wireless VGE channels. See FCC Form 477 definitions and instructions for Line A.11-1 and complete this table accordingly.

Each Exchange name and corresponding data must be entered in a separate row.

Do not report special access lines or any high-capacity connections between two locations of the same end user, ISP, or telecommunications carrier.

Please provide data as of June 30, 2007 and as of December 31, 2007 in two separate tables.

(1) Exchange	(a) Total VGE lines and VGE wireless channels in service	Percentages of lines and wireless channels reported in (a)**						
		(b) Residential lines	(e) Provided over your own local loop facilities or the fixed wireless last-mile equivalent	(f) Provided over UNE loops obtained without UNE switching	(g) Provided over UNE-Platform	(h) Provided by reselling another carrier's service (including Centrex/Centron or channelized special access service)	(i) Provided over coaxial cable at the end user premises ("cable telephony")	(j) Provided over fixed wireless at the end user premises

**Table 5: VoIP Access Lines on a Voice-Grade Equivalent (VGE) Basis**

**Company Name:** RNK Inc. d/b/a RNK Communications

**Company Code\*:** TX942

\* Your Company code is shown on the label affixed to the envelope in which this was mailed and on the cover letter.

**THIS TABLE IS TO ONLY CAPTURE VoIP LINES. DO NOT INCLUDE LINES REPORTED IN TABLE 1.**

Complete Table 5 if you provided VoIP service to Florida *end users* via one or more *voice-grade equivalent (VGE)* lines or wireless *VGE* channels.

An access line connects the end user's customer premises equipment (CPE) to the serving switch and allows the end user to originate and/or terminate local telephone calls on the public switched telephone network (PSTN). The access line counts in Table 5 below must be based on all of your different types of access lines (including fixed wireless) that are used to provide VoIP service.

Each field must be populated. All entries must be made without quotation marks.

**TABLE COLUMN INSTRUCTIONS:**

Column (a). List Exchanges in alphabetical order corresponding to the primary location where service is provided. **Reported exchange data should not be based on secondary service locations (i.e., where service has been moved temporarily to a secondary location such as a vacation home).**

Column (b). Enter the abbreviation **Res** for Residential lines or **Bus** for Business lines. **Residential lines and business lines must be entered in separate rows.**

Column (c). Enter line count as *voice-grade equivalents (VGEs)*. Report *VGEs* based on how the customer is billed. If the customer is billed for a dynamic bandwidth VoIP product, the line count would be the maximum number of VoIP lines available. If the customer is billed for a specific number of VoIP lines, or a range of lines, the VoIP line count would be the number of VoIP lines or the highest number of the range, respectively. **Each line count must be entered in separate rows.**

**Please provide data as of June 30, 2007 and as of December 31, 2007 in two separate tables.**

All filers must complete Items 1 through 8 of this Cover Page. **Data as of:**

Review Instructions before completing this form. Instructions are posted at:

<http://www.fcc.gov/Forms/Form477/477instr.pdf>

1. Company.

2. Filers must report data for ILEC and non-ILEC operations on separate forms. Use the following drop-down box to indicate whether this worksheet contains data for ILEC or for non-ILEC operations.

3. Use the following drop-down box to select the name of your parent or controlling entity. If you are not affiliated with any other filer, select your company name. Select "not shown" if no appropriate name appears in the list. See Instructions section IV.B.1 for information on preparing file names.

If you selected "not shown" above, then provide the following:  
Parent or controlling entity name (if none, enter company name).

4. Filers must report data for different states in separate forms. State.

5. Contact person (person who prepared the data contained below).

6. Contact person telephone number and email address. Phone.   
Email.

7. Indicate whether this is an original or revised filing.

8. Indicate whether you request non-disclosure of some or all of the information in this file because you believe that this information is privileged and confidential and public disclosure of such information would likely cause substantial harm to the competitive position of the filer.

Reminders:

- 1) Ensure files are virus free by using up-to-date virus detection software. Filers are encouraged to submit files via email (address: FCC477@fcc.gov).
- 2) If you are filing original or revised data for an earlier semi-annual reporting period, do not use this particular form (which is only for data as of December 31, 2007). See reminder 4.
- 3) You may not insert or delete columns or rows, move cells, or edit text or numbers outside the cells provided for data entries. Filers will be required to correct and resubmit any files that cannot be opened in EXCEL 2003, any files whose structure has been altered, and any files with improper names.
- 4) If you have questions about the form, contact the Wireline Competition Bureau, Industry Analysis and Technology Division at (202) 418-0940; via email at 477INFO@fcc.gov; or via TTY at (202) 418-0484.
- 5) You must submit a Certification Statement signed by an officer of your company. A single statement may cover all files submitted. See Instructions sections IV & V.
- 6) Name your files as specified in Instructions section IV.B.1. To assist you, complete this Cover Page to generate an "example" name, below. Replace the character "#" in this example name with a sequence number as specified in Instructions. This number should be "1" unless using "1" would cause you to submit more than one file with the identical file name.

Example >>>

DOCUMENT NUMBER-DATE

04067 MAY 15 08

FPSC-COMMISSION CLERK

ARNK Inc for Florida December 31, 2007

Complete Part I.A if you provide one or more lines or wireless channels in the state that connect end users to the Internet at information transfer rates exceeding 200 kbps in at least one direction. For this purpose, include connections provided over your own local loop facilities or over lines or wireless channels you provisioned to enable information transfer at the end user location at rates exceeding 200 kbps in at least one direction. See Instructions for definitions of "broadband", "end user", "own local loop facilities", and "residential end user premises".

If you complete Part I.A, you must provide in Part V specified lists of 5-digit Zip Codes. See Instructions.

Do not report anywhere in the form any high-capacity connections between two locations of the same end user customer, ISP or communications carrier.

Data as of December 31, 2007

I.A. Lines and wireless channels connecting end users to the Internet that you provided over your own local loop facilities, or over UNE loops or other lines and wireless channels that you obtained from unaffiliated entities and equipped as broadband, categorized by technology at the end user location.

(a) Total connections to end users (information transfer rates exceeding 200 kbps in at least one direction)	Percentages of lines and wireless channels reported in (a), and									
	(b) Provided to residential end user premises	(c) Provided over your own local loop facilities or the wireless last-mile equivalent	(d) Billed (or incorporated in a service billed) to end users by you, or your affiliates or agents	That have information transfer rates exceeding 200 kbps in both directions, and:						
				(e) Provided to residential end user premises	(f) Have information transfer rates in the faster direction greater than 200 kbps and less than 2.5 mbps	(g) Have information transfer rates in the faster direction greater than or equal to 2.5 mbps and less than 10 mbps	(h) Have information transfer rates in the faster direction greater than or equal to 10 mbps and less than 25 mbps	(i) Have information transfer rates in the faster direction greater than or equal to 25 mbps and less than 100 mbps	(j) Have information transfer rates in the faster direction greater than or equal to 100 mbps	
1- 1. Asymmetric xDSL.										
1- 2. Symmetric xDSL.										
1- 3. Traditional wireline such as T-carrier.										
1- 4. Cable modem.										
1- 5. Optical carrier (fiber to the end user).										
1- 6. Satellite.										
1- 7. Terrestrial fixed wireless (licensed or unlicensed).										
1- 8. Terrestrial mobile wireless (licensed or unlicensed).										
1- 9. Electric power line.										
1- 10. All other technologies. Report specific technology and the corresponding number of connections in the comment section of Part IV.										

Note: In Part I.A, report actual counts of connections. Do not report voice-grade equivalent measures.

DOCUMENT NUMBER: 04067

MAY 15 2008

FPSC-COMMISSION CLERK

FRNK Inc for Florida December 31, 2007

Complete Part I.B ONLY IF you are an ILEC (or an affiliate of an ILEC) that is reporting asymmetric or symmetric xDSL connections in Part I.A OR you are a cable system (or an affiliate of a cable system) that is reporting cable modem connections in Part I.A.

For the purposes of completing Part I.B:

- (1) "Residential end user premises" include residential living units, individual living units in such institutional settings as college dormitories and nursing homes, and other end user locations to which you (including affiliates and agents) market broadband services that are primarily designed for residential use.
- (2) The "service area" of an ILEC consists of those residential end user premises to which the ILEC can deliver telephone service over local loop facilities (or the fixed-wireless last mile equivalent) that it owns.
- (3) The "service area" of a cable system consists of those residential end user premises to which the system can deliver cable service over cable plant that it owns.

I.B. Report your best estimate of the percentage of residential end user premises in your service area, in this state, to which your broadband connections could be provided using installed distribution facilities.

(a)
Estimated % of residential end user premises

I - 11. Providers of xDSL (asymmetric or symmetric) connections should base responses on the service area of the affiliated ILECs.

I - 12. Providers of cable modem connections should base responses on the service area of the affiliated cable systems.

ARNK Inc for Florida December 31, 2007

EXPIRATION DATE: 05/31/2008

Complete Part II if you provided one or more voice-grade equivalent lines or wireless voice-grade equivalent channels used for local exchange or exchange access service in the state. See Instructions about including lines provisioned over channelized high-capacity facilities, including PRI circuits used to provide local connectivity to dial-up ISPs. Also see Instructions for definitions of "voice telephone service", "voice-grade equivalent", "end user", "residential lines", "presubscribed interstate long distance carrier", "own local loop facilities", and "UNE-Platform".

If in Part II you report voice-grade equivalent lines or voice-grade equivalent wireless channels for service provided to end users, you must provide in Part V a list containing the 5-digit Zip Codes of the locations to which you provide those lines or channels. See Instructions.

Do not report anywhere in the form special access lines or any high-capacity connections between two locations of the same end user customer, ISP or communications carrier. Note that competitive LECs (CLECs) typically do not provide either Total Service Resale or UNE arrangements. Therefore, on Line II-3 of Part II, CLECs typically report any wholesale switched voice lines and channels sold to unaffiliated communications carriers.

Data as of December 31, 2007

(a) Total voice-grade equivalent lines and voice-grade equivalent wireless channels in service	Percentages of lines and wireless channels reported in (a)									
	(b) Residential lines	(c) For which you (including affiliates) are the presubscribed interstate long distance carrier	(d) Residential lines for which you (including affiliates) are the presubscribed interstate long distance carrier	(e) Provided over your own local loop facilities or the fixed wireless last-mile equivalent	(f) Provided over UNE loops obtained without UNE switching	(g) Provided over UNE-Platform	(h) Provided by reselling another carrier's service (including Centrex/Centron or channelized special access service)	(i) Provided over coaxial cable at the end user premises ("cable telephony")	(j) Provided over fixed wireless at the end user premises	
II.A. Voice telephone service provided to end users.										
II - 1. Total lines and channels you provided to end users.										
II.B. Voice telephone service that you provided to unaffiliated communications carriers, categorized by:										
II - 2. Lines and channels you provided to unaffiliated communications carriers under Total Service Resale arrangements.										
II - 3. Lines and channels you provided to unaffiliated communications carriers under other resale arrangements, such as resold Centrex or resold channelized special access service.										
II.C. UNE loops that you provided to unaffiliated communications carriers, categorized by:										
II - 4. Lines and channels that you provided to unaffiliated communications carriers under a UNE loop arrangement, where you did not provide switching for the line.										
II - 5. Lines and channels that you provided to unaffiliated communications carriers under a UNE loop arrangement, where you also provided switching for the line ("UNE-Platform").										

II.A. Voice telephone service provided to end users.

II - 1. Total lines and channels you provided to end users.

II.B. Voice telephone service that you provided to unaffiliated communications carriers, categorized by:

II - 2. Lines and channels you provided to unaffiliated communications carriers under Total Service Resale arrangements.

II - 3. Lines and channels you provided to unaffiliated communications carriers under other resale arrangements, such as resold Centrex or resold channelized special access service.

II.C. UNE loops that you provided to unaffiliated communications carriers, categorized by:

II - 4. Lines and channels that you provided to unaffiliated communications carriers under a UNE loop arrangement, where you did not provide switching for the line.

II - 5. Lines and channels that you provided to unaffiliated communications carriers under a UNE loop arrangement, where you also provided switching for the line ("UNE-Platform").

TRNK Inc for Florida December 31, 2007

Complete Part III if you serve one or more mobile voice telephony subscribers in the state over your own facilities. See Instructions for definitions of "mobile voice telephony subscribers" and "own facilities".

Data as of December 31, 2007

III.A. Mobile voice telephony subscribers in service and served over your own facilities. (Include directly billed subscribers, pre-paid subscribers, and subscribers served via resellers.)

(a) Network telephone service subscribers	(b) Percentage of subscribers reported in (a) that are directly billed or pre-paid subscribers
--	---

III - 1. Cellular, PCS and other mobile telephony.

Note: In Part III, count a subscriber as a mobile handset, car-phone or other revenue-generating active voice unit that has a unique phone number and that can place and receive calls from the public switched network. Subscriber counts by state should be based on the area codes of the phone numbers provided to subscribers.
