 COMMISSION
 CLERK

To Whom It May Concern,

Enclosed please find two of the items requested by the FPSC from the Utility Corporation of Florida, in reference to Docket # 080079-SU:

1. A metes and bounds description of the territories served by the wastewater treatment plant.
2. A map to scale of the sewer collection lines belonging to UCF, Inc. Only lines belonging to UCF are pictured.

The Commission has also asked for a quarterly report for UCF. It is nearly complete and will be in the commission's hands next week.

We are working with a consultant to gather the information the Public Service Commission needs for the rate base determination. We feel confident we can complete this task by July 3.

Now that the metes and bounds territory description is complete, we are ready to go ahead with affidavits notifying the individuals and entities the Commission specifies, to inform them about our application.
