PURPOSE AND PROCEDURE

Evaluation of Utility Revenue Decoupling- The Florida Legislature, in HB 7135, requires the Florida Public Service Commission to submit a report on utility revenue decoupling by January 1, 2009. The purpose of the workshop is to gather information that will assist the Commission's staff in the preparation of the report. Items to be addressed in the workshop include: (1) the methods of revenue decoupling available to electric utilities, (2) consideration of the benefits and costs of each method of revenue decoupling, (3) the effectiveness of revenue decoupling mechanisms in tandem with energy efficiency and conservation targets, (4) incentives as alternatives to revenue decoupling, (5) Florida's history with revenue decoupling mechanisms, and (6) revenue decoupling in other states. The Commission's staff encourages an open dialog at the workshop from a wide range of stakeholders on utility revenue decoupling. Workshop participants will also be provided with an opportunity to submit post-workshop written comments. One or more of the Commissioners of the Florida Public Service Commission may attend and participate in the workshop.
