**MOTION FOR EXTENSION OF TIME TO FILE TESTIMONY AND EXHIBITS**

The Natural Resources Defense Council (NRDC) and Southern Alliance for Clean Energy (SACE), by and through undersigned counsel, hereby file this Motion for Extension of

Time to File Testimony and Exhibits. NRDC and SACE request that their testimony deadline of July 1, 2009 be extended by one week, until July 8, 2009. In support of this motion NRDC and SACE state and allege as follows:

1. On March 12, 2009, the Commission issued its First Revised Order Establishing Procedure. The revised order set the following deadlines: Utility Testimony and Exhibits due June 1, 2009; Intervenors Testimony and Exhibits due July 1, 2009; Staff Testimony and Exhibits due July 17, 2009; Utility Rebuttal Testimony and Exhibits due July 27, 2009.
2. At present, the Intervenors do not have access to information critical to prepare their testimony. For example, Intervenors do not have access to the final energy efficiency achievable potential report, as that report has not yet been finalized. After it's analysis, ITRON provided data to the utility parties (Utilities) regarding which energy efficiency measures are achievable to the respective Utilities. Additionally, the investor-owned Utilities conducted portions of the economic potential analysis internally. Intervenors have not yet been provided detail data either from the ITRON analysis, or from internal analyses completed by the investor-owned Utilities.
3. As soon as possible following receipt of the Utilities' testimony and exhibits, NRDC and SACE submitted Interrogatories and Requests for Production of Documents. This discovery is necessary for Intervenors to understand the Utilities' testimony and exhibits because the Utilities' testimony does not provide adequate detail about the assumptions made by the Utilities and their consultants or the analysis of specific measures.

4. NRDC and SACE requested that the Utilities expedite their responses to their discovery requests, in light of the very short period between the deadline for the Utilities responses to NRDC-SACE's discovery responses and the Intervenors' testimony submission deadline. The Utilities have unanimously refused to expedite their discovery responses. Accordingly, without the relief requested in this motion, Intervenors would not expect to receive responses to their discovery requests until just two calendar days prior to Intervenors' deadline to file testimony.
5. Even if the requested extension is granted, Intervenors will have just six business days in which to analyze the documents provided by the Utilities, and then finalize and submit their expert testimony. It is vital that NRDC and SACE witnesses gain access to the background materials in these studies in order to efficiently review and assess the results, and in order to offer the Commission reasoned input on these studies through expert testimony.
6. NRDC and SACE were not able to conduct discovery prior to July 1, 2009, because the achievable analysis and other analyses on which the Utilities' relied were not completed (and some of it remains incomplete) until shortly before the Utilities' June 1 testimony deadline.
7. Intervenors believe that the requested extension is in the public interest because it will elevate the quality of the record before the Commission, and enhance the Commission's ability to comply with its requirements under section 366.82(3), F.S. The requested extension will not prejudice the other parties to this proceeding.

8. Counsel for Intervenors contacted all of the parties to Docket Nos. 080407-080413. Progress Energy of Florida, the Orlando Utilities Commission, Florida Public Utilities Company, Florida Solar Coalition, Florida Energy and Climate Commission, and Florida Industrial Power Users Group do not object to this request. Florida Power & Light Company, and Tampa Electric Company expressed objections, while Jacksonville Electric Authority and Gulf Power Company did not register a preference.

WHEREFORE, Petitioners, the Natural Resources Defense Council, Inc., and the Southern Alliance for Clean Energy, Inc., for the reasons set forth above, respectfully request that the Commission issue an order extending the July 1, 2009, deadline for filing Intervenor testimony by one week, to July 8, 2009.

Respectfully submitted this 16th day of June, 2009.
