Yes that's correct. I included the wrong docket number from a old Sprint interconnection. The letter should have said Docket 100070-TP. Do I need to send a new letter?

No. This letter should go into Docket No. 100070-TP. I'm not sure why they included the incorrect docket no in the re line, but as near as I can tell, the intent was to reference the older docket as the one being adopted in the newer docket.

Tom, can you verify this, please?

Jeff,

the Clerk's Office received a letter from Thomas McCabe (see attachment to e-mail) correcting the original letter filed (in 2005) in docket.

My question:

does this letter go into Dkt 050920 ?

or,

should a new docket be established per this letter ?

thanks,
Marguerite.
