Re:

Verizon Florida's Response to the 2010 Incumbent Local Exchange Carrier (ILEC)

Local Competition Data Request

Dear Ms. Cole:

Attached is a copy of Verizon Florida's response to the Commission's annual ILEC data request. Verizon welcomes the opportunity to assist the Commission in evaluating the status of competition in Florida. This filing includes a separate envelope containing a confidential CD with data table responses.

Please note that Verizon's responses for the supplemental UNE tables (A & B) are being compiled and will be filed by Tuesday, April 20.

Verizon considers this information to be confidential as it contains proprietary information that could be used by competitors to gain an unfair competitive advantage. Therefore, this filing is made under a Claim of Confidentiality pursuant to F.S. 364.183(1) and Rule 25-22.006(5). Verizon understands the information must be kept confidential until returned to Verizon.

If you have any questions or concerns, please feel free to contact me or Demetria Clark at (850) 222-5479.

Table 5: VolP Access Lines on a Voice-Grade Equivalent (VGE) Basis

Company Name:	Verizon FL LLC		
	TL710		
Company Code*:	12710		

THIS TABLE IS TO ONLY CAPTURE VOIP LINES. DO NOT INCLUDE LINES REPORTED IN TABLE 1.

Complete Table 5 if you provided VoIP service to Florida end users via one or more voice-grade equivalent (VGE) lines or wireless VGE channels.

An access line connects the end user's customer premises equipment (CPE) to the serving switch and allows the end user to originate and/or terminate local telephone calls on the public switched telephone network (PSTN). The access line counts in Table 5 below must be based on all of your different types of access lines (including fixed wireless) that are used to provide VoIP service.

Each field must be populated. All entries must be made without quotation marks.

TABLE COLUMN INSTRUCTIONS:

Column (a). Reported NPA-NXX data should not be based on secondary service locations (i.e., where service has been moved temporarily to a secondary location such as a vacation home).

Each NPA-NXX and corresponding data must be entered in a separate row. Please combine lines that have the same NPA-NXX.

Column (b). Enter the abbreviation Res for Residential lines or Bus for Business lines. Residential lines and business lines must be entered in separate rows.

Column (c). Enter line count as voice-grade equivalents (VGEs) . Report VGEs based on how the customer is billed. If the customer is billed for a dynamic bandwidth VoIP product, the line count would be the maximum number of VoIP lines available. If the customer is billed for a specific number of VoIP lines, or a range of lines, the VoIP line count would be the number of VoIP lines or the highest number of the range, respectively. Each line count must be entered in separate rows.

Please provide data as of December 31, 2009.
