Hi!

Stopped by few minutes ago. I submitted the memo to add the attachment to the docket file. Do I do a separate memo to change the docket tile now that they want to drop the request to have the DBA, or do an e-mail?

Thanks Marguerite.

Paul

*i would suggest that you file a memo with the attachment to be added to the docket file and do a revision form.*

The company submitted a correction to the original filing, removing the DBA.

Is the attachment something that can be added to the docket file, and the docket title updated based on it?

Or should I print and do it on a revision form?

Thanks!

Paul,

No reason to mess with the fictitious name for now. A cover letter and revised page are attached.

Good catch!

Regards,

Frank

Good afternoon Mr. Wood. I'm following up on our phone conversation this afternoon.

The Florida Public Service Commission (FPSC) is in the process of reviewing your application for a CLEC certificate for AireWire, Inc.

However, on page 2 of the application section #3, "Name under which applicant will do business (fictitious name,

4/14/2011

etc.)", shows the fictitious name of "AireWire". We need confirmation showing the Fictitious Name Filing with the Florida Department of State. In lieu of this, an amended application to the FPSC, removing the fictitious name listed in #3 will suffice.

If you chose to send the amended application, page 2 is all I need. Please mark "Amended Page 2" on the fax transmittal. If you file for a fictitious name with the Secretary of State, I just need an e-mail with the registration number.

Thank you for your assistance with this.
