I, Jeffrey Noto, as an officer of the Verizon ILEC entities and acting as an agent of these companies, certify that to the best of my knowledge, information and belief, the frozen high-cost support the Verizon ILEC entities received in 2012 was used consistent with the goal of achieving universal availability of voice and broadband.

A handwritten signature in black ink, appearing to read "Jeffrey Noto". The signature is stylized and cursive, with the first name "Jeffrey" written in a large, flowing script and the last name "Noto" written in a smaller, more compact script.
