Subject: RE: Docket No. 20170007 – Deny FPL’s request to bill families for clean up costs

Good morning Ms. Shlackman,

We will be placing your comments below in consumer correspondence in Docket No. 20170007 and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brandy Butler
Commission Deputy Clerk I
Florida Public Service Commission

Subject: Docket No. 20170007 – Deny FPL’s request to bill families for clean up costs

Dear FL PSC,

FPL customers shouldn’t have to pay to clean up the company’s mess at its Turkey Point plant. It’s not fair for customers of a company, which made record profits last year, to pay clean up costs for a mess that’s been developing on FPL’s watch for 40 years.

I attended and gave comments at a meeting convened by members of the Florida Legislature concerning the contamination of the cooling canals. FPL should have known long ago that its cooling canals were creating a growing underground contamination plume in the drinking water aquifer, and should have acted prudently to address this problem. It sat on its hands for decades and only recently began to consider a solution to the problem. Why should I and other customers pay for decades of mistakes by FPL?

As it is, FPL was recently granted a rate hike and will also be requesting recovery over \$1 billion from customers due to storm damage. Florida’s families should not have the additional burden to pay over \$200 million to FPL to cover FPL’s inaction to address pollution from its cooling canals.

FPL should pay to clean up its own mess, not customers. Please vote to deny FPL’s unfair request to saddle families with more costs and higher bills.

Sincerely,
Mara Shlackman
