Subject: Turkey point

Good evening,

My name is Sami Ariss and i was confused with what the people in Florida have to do with this situation. i do not agree that the customers should pay for this cause. if we damaged or cause this to happen, then would understand that. but us paying \$200 million to clean up Turkey Point? i think that FPL should do this work. if I had to pay for this damage of what we the people didn't do, then i would probably move out of the state. aging, I disagree with what FPL has to say. Sincerely, Sami

Sami Ariss

Subject: Comments regarding FPL request for \$200 Million to clean up Turkey Point

For the record please be advised that in response to FPL's request for \$200 Million to clean up Turkey Point I am opposed to their request. I think that FPL consistently asks for permission for funds that are not used for the purpose they are designed.

Thank you,

Bobbie Jones-Wilfork

Subject: Turkey Point

Dear FPL, I am a student from the Cushman School and I do not think that customers should pay 200,000,000 dollars to clean up Turkey Point. FPL and Turkey Point should pay, I mean doesn't FPL have enough money from the government ? The toxic waste is killing our environment and deforming fish. I hope you can solve this problem before its to late.

Best Regards,

Lucy

Subject: FPL & Turkey Creek clean-up

I firmly believe it is the responsibility of FPL to pay for any clean-up. This is part of doing business. It is not the responsibility of the public to pay for work that they should be doing.

Please do not approve any tax or additional cost to the public.
Kathy
