COMMISSION
CLERK

Please help hard-working
Floridians by insisting
that FPL pay for their
own clean up of the
leaking canals @ Turkey
Point. That's what
responsible businesses
do. They pay for their
own maintenance.
My mechanic doesn't
submit a bill for

the tune up of his
personal vehicle to
me his customer.

We already struggle
w/ the ever-rising
costs of food, health-
care, car insurance,
& housing. We ordinary
citizens depend on you
to represent us against
their economic clout.

Thank you!

PS. Please don't allow
a culture of dominance
to dictate public policy
again. We have no
other competitor to
choose from when we
turn on our lights,
keep our food fresh
w/ a fridge, keep
medical devices on,
or try to keep cool
in the Fla. heat &
humidity or make

a needed phone call
for our daily communications
The average person is
highly dependent on
FPL w/ our ordinary
salaries. I believe
many a customer will
not write to oppose
this objectionable fee
b/c they don't think
anyone will listen
or act on their behalf.

Please advocate for
all of us (who don't
have paid
lobbyists.)
