Session

CASE #  
20170007

Gentlemen; we are writing you in the name of millions of retirees that live in the State of Fl. The Miami Herald article of Nov. 24/17 about Florida Power and Light has alerted us and given the opportunity to realize that FPL is not justified to make our lives more miserable when it comes to take away more of our hard earned money, through years of work and pay taxes.

We are the people who depend on a fixed Retired Check every month. As it is making our ends meet is becoming increasingly difficult, let alone the health issues and expenses. FPL is a giant money power that does not need (nor justified) to squeeze us more of our economic resources just to satisfy their huge money appetite when we know they swim in enough funds and can easily absorb their responsibilities without hurting our already affected economy.

We beg you to reconsider their demand to penalize us for something that is their doing not ours. We trust you in using your good judgement in keeping us in mind, and with your good heart give us peace of mind, at least for now.

With all due respect. Yours

Very truly,

JULIO BREZO  
AGUEDA BREZO
