Case Background

Section 364.01, Florida Statutes (F.S.), grants the Commission jurisdiction to regulate telecommunications companies. In accordance with Section 364.33, F.S., a person may not provide telecommunications services without a certificate of necessity or a certificate of authority granted by the Commission. Section 364.335, F.S., prescribes the required elements of an application for a certificate of authority, including information demonstrating the applicant's managerial, technical, and financial ability to provide telecommunications service.

Rule 25-4.004, Florida Administrative Code (F.A.C.), Certificate of Necessity or Authority; Application, and Rule 25-4.005, F.A.C., Transfer of Certificate of Authority, describe the required elements of an application for an original certificate of necessity or authority and the transfer of the certificate of necessity or authority to provide telecommunication service. Staff

initiated rulemaking in this docket to modify, streamline, and clarify the application, assist in avoiding applicant confusion, and eliminate redundancy in the rules.

On October 10, 2017, a Notice of Development of Rulemaking was published in the Florida Administrative Register Vol. 43, No. 196, on the amendment of Rule 25-4.004, F.A.C., and the repeal of Rule 25-4.005, F.A.C. The Commission Notice stated that written requests for a rule development workshop must be submitted by October 24, 2017. No requests for a workshop were received.

This recommendation addresses whether the Commission should propose the amendment of Rule 25-4.004, F.A.C., and the repeal of Rule 25-4.005, F.A.C. The Commission has jurisdiction pursuant to Section 120.54, F.S., and Chapter 364, F.S.

Discussion of Issues

Issue 1: Should the Commission propose the amendment of Rule 25-4.004, F.A.C., Certificates of Necessity or Authority; Application, and the repeal of Rule 25-4.005, F.A.C., Transfer of Certificate of Necessity or Authority?

Recommendation: Yes, the Commission should propose the amendment of Rule 25-4.004, F.A.C., and the repeal of Rule 25-4.005, F.A.C., as set forth in Attachment A. Staff recommends that the Commission certify amended Rule 25-4.004, F.A.C., as a minor violation rule. (Fogleman, Williams, Page, Draper)

Staff Analysis: Staff recommends the amendment of Rule 25-4.004, F.A.C., and the repeal of Rule 25-4.005, F.A.C., as set forth in Attachment A. Rule 25-4.004, F.A.C., establishes the requirements and the necessary process to apply for a certificate to provide telecommunications service. Rule 25-4.005, F.A.C., sets forth the requirements for the transfer of a telecommunications service certificate.

The staff recommended amendments to Rule 25-4.004, F.A.C., incorporate the requirements of Rule 25-4.005, F.A.C., which would be repealed. Both rules require a nonrefundable application fee of \$500. The rule amendments update and streamline the procedures for obtaining an original telephone certificate or the transfer of the certificate. The recommended amendments to Rule 25-4.004, F.A.C., will prevent confusion regarding the documentation provided by the applicant, avoid redundancy, and clarify the application process. The amount of the application fee is unchanged in the proposed amendments.

There are sections of the application form for a certificate that applicants frequently do not answer completely, which leads to the necessity of follow-up questions and additional processing time. Staff has observed that the required financial information is frequently not provided by the applicants.

The recommended changes to the new application form specify that financial statements demonstrating financial ability must be included and that if the applicant does not have audited financial statements, it must be stated and signed by either the applicant's chief executive officer or chief financial officer affirming that the financial statements are true and correct. The new application form now requires that if a full three years of historical data is not available, the application must include "both historical financial data and pro forma data" to supplement the application. Staff believes that these recommended changes in the form may help limit the number of incomplete forms submitted to the Commission, thus, making the process more efficient.

Statement of Estimated Regulatory Costs

Pursuant to Section 120.54, F.S., agencies are encouraged to prepare a statement of estimated regulatory costs (SERC) before the adoption, amendment, or repeal of any rule. The SERC is appended as Attachment B to this recommendation. The SERC analysis also includes whether the rule amendment is likely to have an adverse impact on growth, private sector job creation or

Date: January 25, 2018

employment, or private sector investment in excess of \$1 million in the aggregate within five years after implementation.

The SERC concludes that applicants may see cost savings because the proposed amendments clarify and streamline the process, and eliminate redundancy. The SERC states that there is no change in the filing fee. Staff believes that the rule amendments will not likely directly or indirectly increase regulatory costs in excess of \$200,000 in the aggregate in Florida within one year after implementation.

Further, the SERC concludes that the rule amendments will not likely have an adverse impact on economic growth, private-sector job creation or employment, private sector investment, business competitiveness, productivity, or innovation in excess of \$1 million in the aggregate within five years of implementation. Thus, the rule amendments do not require legislative ratification pursuant to Section 120.541(3), F.S.

In addition, the SERC states that the rule amendments may bring cost savings to small businesses, small cities and small counties. No regulatory alternatives were submitted pursuant to paragraph 120.541(1)(a), F.S. None of the impact/cost criteria established in paragraph 120.541(2)(a), F.S., will be exceeded as a result of the recommended revisions.

Minor Violation Rules Certificate

Pursuant to Section 120.695, F.S., beginning July 1, 2017, for each rule filed for adoption, the Commission is required to certify whether any part of the rule is designated as a rule the violation of which would be a minor violation. A list of Commission rules designated as minor violation rules is published on the Commission's website, as required by Section 120.569(2), F.S. If the Commission proposes the amendment of Rule 25-4.004, F.A.C., the rule would continue to be considered a minor violation rule. Therefore, for purposes of filing an amended rule for adoption with the Department of State, staff recommends that the Commission certify proposed amended Rule 25-4.004, F.A.C., as a minor violation rule. If the Commission proposes the repeal of Rule 25-4.005, F.A.C., the rule will be deleted from the Commission's list of rules designated as minor violation rules.

Conclusion

For the reasons described above, staff recommends that the Commission should propose the amendment of Rule 25-4.004, F.A.C., and the repeal of Rule 25-4.005, F.A.C., as set forth in Attachment A. Staff recommends that the Commission certify the proposed amended Rule 25-4.004, F.A.C., as a minor violation rule.

Issue 2: Should this docket be closed?

Recommendation: Yes, if no requests for hearing or comments are filed, the rules as proposed should be filed for adoption with the Secretary of State and the docket should be closed.

Staff Analysis: If no requests for hearing or comments are filed, the rules as proposed should be filed for adoption with the Secretary of State and the docket should be closed.

 Florida Statute 364.335(1)(a) requires a company seeking a certificate of authority to demonstrate its managerial, technical, and financial ability to provide telecommunications service.

Note: It is the applicant's burden to demonstrate that it possesses adequate managerial ability, technical ability, and financial ability. Additional supporting information may be supplied at the discretion of the applicant. For the purposes of this application, financial statements MUST contain the balance sheet, income statement, and statement of retained earnings.

- (a) <u>Managerial ability</u>: An applicant must provide resumes of employees/officers of the company that would indicate sufficient managerial experiences of each. Please explain if a resume represents an individual that is not employed with the company and provide proof that the individual authorizes the use of the resume.
- (b) <u>Technical ability:</u> An applicant must provide resumes of employees/officers of the company that would indicate sufficient technical experiences or indicate what company has been contracted to conduct technical maintenance. Please explain if a resume represents an individual that is not employed with the company and provide proof that the individual authorizes the use of the resume.
- (c) Financial ability: An applicant must provide financial statements demonstrating financial ability by submitting a balance sheet, income statement, and retained earnings statement. An applicant that has audited financial statements for the most recent three years must provide those financial statements. If a full three years' historical data is not available, the application must include both historical financial data and pro forma data to supplement. An applicant of a newly established company must provide three years' pro forma data. If the applicant does not have audited financial statements, it must be so stated and signed by either the applicant's chief executive officer or chief financial officer affirming that the financial statements are true and correct.

RE:

Statement of Estimated Regulatory Costs (SERC) for Proposed Amendments to Rule 25-4.004 (Certificates Necessity or Authority; Application) and for Proposed Repeal of Rule 25-4.005 (Transfer of Certificate of Necessity or Authority),

Florida Administrative Code (F.A.C.)

Both rules concern telecommunications service. The purpose of the rulemaking is to streamline, update, and clarify Rules 25-4.004 and 25-4.005, F.A.C., resulting in the repeal of Rule 25-4.005, F.A.C. Rule 25-4.004, F.A.C., establishes the requirements and processes necessary to apply for a certificate to provide telecommunications service. Rule 24-4.005, F.A.C., establishes the requirements for transfer of a telecommunications service certificate. Both rules contain links to their application forms and both rules require a nonrefundable application fee of \$500. The proposed amendments to Rule 25-4.004, F.A.C., incorporate the requirements of Rule 25-4.005, F.A.C, update and clarify language, and provide for the same application form for both the application for a certificate and transfer of a certificate (the link to the application would continue to be available in the amended rule). The nonrefundable application fee of \$500 is unchanged in the proposed amendments.

The attached SERC addresses the considerations required pursuant to Section 120.541, Florida Statutes (F.S.). No workshop was requested in conjunction with the recommended rule revisions. No regulatory alternatives were submitted pursuant to paragraph 120.541(1)(a), F.S. None of the impact/cost criteria established in paragraph 120.541(2)(a), F.S., will be exceeded as a result of the recommended revisions.
