Request for Specified Confidential Treatment of 423 Forms

Dear Ms. Stauffer:

Please find enclosed for filing Duke Energy Florida, LLC's ("DEF") Request for Confidential Classification for DEF's 423 Forms for the months of January, February, and March 2018. The confidential 423 Form information is attached in a sealed envelope.

Thank you for your assistance in this matter. Please feel free to call me at (727) 820-4692 should you have any questions.

Sincerely,

A handwritten signature in blue ink that reads "Dianne M. Triplett".

Docket No. 20180001-EI

Filed: April 30, 2018

**DUKE ENERGY FLORIDA, LLC's  
REQUEST FOR CONFIDENTIAL CLASSIFICATION**

Duke Energy Florida, LLC (“DEF” or “the Company”), pursuant to Section 366.093, F.S., and Rule 25-22.006, F.A.C., hereby requests confidential classification of the highlighted information on its FPSC Form 423 Fuel Report for the months of January, February, and March 2018 (the 423 Report), which is contained in the sealed envelope enclosed with this Request as Attachment A. A public version of the 423 Report, with the confidential information redacted, is attached to each filed copy of this Request. In support hereof, DEF states as follows:

1. Subsection 366.093(1), F.S., provides that any records “found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from s. 119.07(1) [requiring disclosure under the Public Records Act].” Proprietary confidential business information includes, but is not limited to, “[i]nformation concerning . . . contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.” § 366.093(3)(d), Fla. Stat.. The designated portions of the 423 Report fall within this statutory category and, thus, constitute propriety confidential business information entitled to protection under Section 366.093 and Rule 25-22.006.

2. Attachment C to this Request is a matrix providing justification and support for confidential classification of the highlighted information in each section of the 423 Report (Forms 423-1A, 423-2, 423-2a, and 423-2b) on a line-by-line, column-by-column basis.

3. The designated information for which confidential classification is sought by this Request is intended to be and is treated by the Company as private and has not been publicly disclosed.

4. DEF requests that the confidential information contained in the 423 Report be protected from disclosure for a period of 24 months. For the reasons explained in Attachment B to this Request, this is the minimum time necessary to ensure that purposes for which confidential classification is granted are not contravened and frustrated by a premature subsequent disclosure. In addition, DEF asks that the version of the 423 Report containing the highlighted information be returned to the Company when the Commission no longer needs the information to conduct its business, in accordance with Rule 25-22.006(9)(b), F.A.C.

WHEREFORE, DEF requests that the highlighted information in its 423 Report enclosed with this Request be accorded confidential classification for the reasons set forth in Attachment C, and that such confidential classification be maintained for a duration of 24 months for the reasons set forth in Attachment B.

Respectfully submitted,

---

**Explanation of the Need to Maintain  
Confidential Classification for a 24-Month Duration**

The majority of the fuel and transportation contracts from which the costs in the 423 Report are derived contain annual price adjustment provisions. If existing or potential fuel and transportation suppliers were to obtain confidential contract pricing information for a prior reporting month within the currently effective 12-month adjustment period, current pricing information would be disclosed. In addition, if contractual pricing information for a reporting month in the previous 12-month adjustment period were to be obtained, the information would be only one adjustment removed from the current price. Suppliers knowledgeable in the recent escalation experience of their market could readily calculate a reasonably precise estimate of the current price.

To guard against providing suppliers with such a competitive advantage, confidential information must be protected from disclosure for the initial 12-month period in which it could remain current, and for the following 12-month period in which it can be readily converted into essentially current information. For example, if information for the first month under an adjusted contract price is reported in May of Year 1, the information will remain current through April of Year 2. Thereafter, the initial May, Year 1 information will be only one escalation adjustment removed from the current information reported each month through April, Year 3. If confidential classification of the May, Year 1 information were to expire after 18 months, suppliers would be able to accurately estimate current prices in October, Year 2 using information that had been current only six months earlier.

An 18-month confidentiality period would effectively waste the protection given in the first six months of the second 12-month pricing period (months 13 through 18) by disclosing

information of the same vintage in the last six months of the pricing period. The information disclosed in months 19 through 24 would be equally as detrimental in terms of revealing the current price as the information protected from disclosure during the preceding six months. To make the protection provided in months 13 through 18 meaningful, it must be extended through month 24.

Extending the confidentiality period by six months would mean that the information will be one additional price adjustment further removed from the current price at the time of disclosure. Simply put, a six-month extension provides an additional 12 months of protection.

Justification Matrix

Reporting Period: January, February, and March 2018

| FORM 423-1a   |        |   |
|---|--------|---|
| Line No.  | Column | Justification   |
| 1-4 January 2018<br>1-3 February 2018<br>1 March 2018 | h      | (1) §366.093(3)(d) The information under "Invoice Price", identifies the basic component of the contract pricing mechanism. Disclosure of the invoice price, particularly if in conjunction with information under other columns discussed below, would enable suppliers to determine the pricing mechanisms of their competitors. The likely result would be greater price convergence in future bidding. Disclosure would also result in a reduced ability on the part of a major purchaser such as DEF to bargain for price concessions, since suppliers would be reluctant or unwilling to grant concessions that other potential purchasers would then expect. |
| 1-4 January 2018<br>1-3 February 2018<br>1 March 2018 | i      | (2) §366.093(3)(d) Disclosure of the Invoice Amount, when divided by the Volume figure available from column g, would also disclose the Invoice Price in column.  |
| 1-4 January 2018<br>1-3 February 2018<br>1 March 2018 | j      | (3) §366.093(3)(d) Disclosure of the Discount, in conjunction with other information under columns k, l, m or n, could also disclose the Invoice Price shown in column h by mathematical deduction. In addition, disclosure of discounts resulting from bargaining concessions would impair the ability of DEF to obtain such concessions in the future for the reasons discussed in item (1) above.  |
| 1-4 January 2018<br>1-3 February 2018<br>1 March 2018 | k      | (4) §366.093(3)(d) See item (3) above.  |

| 1-4 January 2018<br>1-3 February 2018<br>1 March 2018 | m      | (6) §366.093(3)(d) See item (3) above.  |
| 1-4 January 2018<br>1-3 February 2018<br>1 March 2018 | n      | (7) §366.093(3)(d) See item (3) above. This column is particularly sensitive because it is usually the same as or only slightly different from the Invoice Price in column h.   |
| 1-4 January 2018<br>1-3 February 2018<br>1 March 2018 | o      | (8) §366.093(3)(d) Disclosure of the Transportation to Terminal Charges, in conjunction with the information under column p, would also disclose the Effective Purchase Price in column n by subtracting them from the Delivered Price available in column q.   |
| 1-4 January 2018<br>1-3 February 2018<br>1 March 2018 | p      | (9) §366.093(3)(d) See item (8) above   |

See item (24) below. In the case of waterborne deliveries to the Crystal River Plants, the figures represent DEF's current river barge transportation rate. Disclosure of these transportation rates would enable coal suppliers to bid a FOB mine price calculated to produce a delivered plant price at or marginally below DEF's current delivered price, which is available on Form 423-2, column i. Without this opportunity to calculate a perceived maximum acceptable price, suppliers would be more likely to bid their best price. |
