**Subject:** Approve Vero Electric Sale as negotiated

I am writing this as a resident of the area affected by the Vero electric sale. We have been unfairly paying higher electric rates than our neighbors within blocks of us for many years. Our grid has not been kept up and we have power outages with even minor storms. The negotiations for this sale have gone through what seemed like a fair and lengthy process to evaluate all the pros and cons for all the stake holders, and was approved. Now we find that it is once more being stalled by big monied companies, and the interests of the residents most directly affected are being ignored. As a public service commissioner, I am asking you to advocate for us, and listen to the residents most directly affected by this sale. Please approve the sale as already negotiated.
