Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

RE: Docket number 20200092-E1

To Whom It May Concern:

As a Florida Power and Light Company customer for close to twenty years, I urge the Florida Public Service Commission (PSC) to deny enactment of the proposed Storm Protection Plan (SPP). It seems to be a way to increase profits of the four major electric utility companies in Florida without significantly improving response time and electric restoration after storms.

Further, the timing of this decision could not be worse. I am stretched to the max due to the COVID pandemic and cannot afford the proposed additional cost for storm related services.

I will be immensely disappointed in the PSC if it rules in favor of the electric utility companies. They stand to gain \$12-billion in profits which is obscene during a worldwide pandemic when millions of Americans are out of work

Thank you for your consideration.

Sincerely,
Dorothy Karl
