Good Morning, Tonya Sei

We will be placing your comments below in consumer correspondence in Docket No. 20200092-E1 and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz
Commission Deputy Clerk II

Subject: DUKE ENERGY!!! Stop the Electric Utilities' Boondoggle (Docket 20200092-E1)

Sep 22, 2020

Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

DUKE ENERGY!!! Stop the Electric Utilities' Boondoggle (Docket 20200092-E1)

I am a single female supporting 2 others that are not working due to Covid. I work 40 hours plus a week to make ends meet. The cost of electricity is already high and I have to struggle to make sure that the bill is paid in the summer months which in FL is pretty much a large portion of the year. I simply cannot afford any increases. Please stop this so called 'storm protection plan' that will benefit very very few at the cost of so many that it would not provide any additional benefit for. If there are people that want this then bill them for it.
This is not something I and I'm certain many others would want to see happen.

How can you possibly see something that would benefit no more than 5 percent of those footing the bill? Who exactly is the 5 percent that it would benefit and what makes them any more deserving of this than anyone else that is paying for it?

Sincerely,

Ms. Tonya Sei
