Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I believe it is not in the best interest of electric customers to subsidize power companies that only add to their profit margins.

We were told back in the early 1990's that the overhead power lines in our back yard would be replaced with underground wiring.

This has not happened.

No rate increases for the same or decreased services, please!

Sincerely,

Mr. Brian Nemeth
