Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

We are all struggling during these pandemic times and increasing the cost of our electric bills should not be another thing to add to our burden. Especially if the plans for the use of the money don't include many improvements to make our lives better for the cost such as huge investment in underground lines.

Sincerely,

Ms. Kathleen Kirby
