Subject: Stop the Electric Utilities' Boondoggle (Docket 20200092-E1)

Sep 24, 2020

Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

This is not a plan for the benefit of the majority of utility customers, who over the periodic of 30 years, will pay an enormous amount of money for an infrastructure project that will not solve existing, ongoing problems fast enough. It is the FPSC role, responsibility and moral duty to exercise its fiduciary responsibility to FL's citizens by establishing priorities of projects and spending in the best interest of citizens and not by rubber stamping grandiose, politically self serving projects of public companies and their shareholders (of which I am one).

This might be too simple and practical an idea but I suggest the PSC approve short term regional plans based on needs and priorities in the most effected areas and monitor their successful implementation as a condition for approval and funding of new projects.

Sincerely,

Mr. Wolf H Lehmkuhl
