Subject: Stop the Electric Utilities' Boondoggle (Docket 20200092-E1)

Sep 25, 2020

Florida PSC PSC PSC  
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

Please do not approve the utilities' storm plans until they have complied with your own rules and until the money is pledged to put a huge amount of power lines underground. The tiny percent of FPL's and other companies' lines that are planned to be underground by 2059 is hardly worth doing! Who will be the favored 4% who get the results of all of us paying substantially more each year for 39 years for our power? That's just not fair. And it does seem as though 39 years of increased payments could accomplish a lot more than a few underground power lines. Where is the rest going to go?!

Please, Commissioners, if the customers are going to pay for the next 39 years, be sure that there are worthwhile results that will really ease storm-related power issues. Thank you very much.

Jeanette Sparks  
FPL customer

Sincerely,

Ms. Jeanette Sparks
