Florida PSC PSC PSC
FL

Dear Florida PSC PSC,

We are in the middle of a pandemic with unemployment rampant in our state. Right now, Floridians need help making ends meet paying day-to-day expenses, including rising healthcare costs and prescription drug prices, as well as increasing rents and food costs.

What Floridians do not need now is to pay for services that benefits no more than 5 percent of ratepayers.

I'm disappointed to hear that the Public Service Commission is going ahead with approving our for profit utilities modified storm protection plans that will benefit the companies and pass more increases to customers who won't benefit from upgrades.

My street & the houses that back up to mine on the next street always loose power. That's 64 houses total. We've been told upgrades were made & we still loose power. Then we were told power lines would be put underground but we're not included. Next we were told the trees between the houses where the power lines are would be cut back.

Only certain streets have been done but not ours. So once again we loss power on a clear night when a tree branch fell on the main power line.

I live on social security and these increases are a hardship. I'm requesting that you modify all four storm protection plans due to their failure to meet key provisions of PSC Rule 25-6-030.

Thank you,
Aline Staniewicz
