Subject: Florida 813 and 850 NPA Overlay Projects

Hello Greg –

The joint teams for the 813 and 850 overlay projects met to talk about the revised permissive dialing timeframe that was requested by several of the alarm companies/associations in Florida. Please see the attached document to add the FL PSC's December 1st docket with revised dates for the both 813 and 850 overlay initiatives.

As you can see, we've extended permissive dialing for both projects by three months. Please take a look at the document and let us know if you have questions, revisions or any thoughts.

Thanks,
Paul Belote
Co-Chair – 813 NPA Relief

FL PSC Docket No. 20200236

In an effort to ensure a smooth transition for all involved with the Area Code Relief Projects in Florida, and after evaluating remaining available numbering resources, the Industry Committee proposes extending the 7 or 10-digit Permissive Dialing Periods for the 813 and 850 NPAs. Our proposed implementation schedule is as follows:

850/448 NPA

The industry test number: **448-448-1448**. The test number will be active **3/22/2021 through 07/22/2021 (revised)**.

850/448 NPA	DATE
End of permissive dialing and start of mandatory 10-digit dialing	May 22, 2021 (revised)
Earliest new 448 NPA central office code activation / in service date	June 22, 2021 (revised)
Earliest date central office codes in the new 448 overlay area may be ordered through NANPA*	April 17, 2021 (revised)

* CO codes in 448 NPA are available only when all assignable CO code in the 850 NPA are assigned.

813/656 NPA

The industry test number: **656-656-1656**. The test number will be active **11/22/2022 through 3/22/2022 (revised)**.

813/656 NPA	DATE
Start of permissive 10-digit dialing	April 17, 2021
End of permissive dialing and start of mandatory 10-digit dialing	January 22, 2022 (revised)
Earliest new 656 NPA central office code activation / in service date	February 22, 2022 (revised)
Earliest date central office codes in the new 656 overlay area may be ordered through NANPA**	December 18, 2021 (revised)

* CO codes in 656 NPA are available only when all assignable CO code in the 813 NPA are assigned.

We recognize the delays that certain security and alarm companies are incurring due to limited building access caused by the COVID-19 pandemic, and the potential public safety risk that could result by such delays. The Industry Committee is confident that the extended Permissive Dialing Periods will provide these companies, and all involved with the NPA overlays, appropriate time to properly implement the requirements.

The Industry Committee kindly requests a prompt issuance of the Commission's decision in order to provide adequate preparation time for January 2021 customer communications reflecting the revised 850/448 mandatory dialing date.
