SUBJECT: Docket #20200226-SU

Objection

We object to the application to bifurcate and waiver in this matter. As home owners on Little Gasparilla Island we object to the application of Environmental Utilities, LLC [EU] for a central sewer. We object to an application to keep the costs and proposed expenses secret. We object to the granting of a temporary waiver of Rule 25-30.033(1)(p) and (q). Given the absolutely inadequate information regarding the applicant's financial strength, management experience, and the secret costs involved with this project, the applicant's request for a waiver should be denied by the Commission sua sponte.

As retired home owners and stakeholders on a fixed income in the proposed service area, it is necessarily required that we have all the information regarding any proposed central sewer, including the proposed rates, connection fees and the type of system intended for installation and the purported trustworthiness of the applicant. This applicant has no experience.

We therefore respectfully request that such a "limited liability" two person corporation's request for bifurcation and a temporary waiver be denied.

Yours truly,

Guy L.Hurst and Jvonna T. Meier
