REF: Docket No. 20200226-SU
Environmental Utilities, LLC Application to provide wastewater services in Charlotte County.

I am a homeowner on Little Gasparilla Island, which is in the service area contained in the application from Environmental Utilities (EU), LLC for central sewer, as stated above.

I totally object to the EU's request for the bifurcation of the certificate and rate-making proceedings. I also totally object to the temporary waiver of Rule 25-30.033 (1) (p) and (q).

Given the inadequate information regarding the applicant's financial strength and management experience as well as the expense to the stake holders involved with this project, the applicants request for such waiver must be denied.

As a stakeholder in the proposed serviced area, it is of the utmost importance to have ALL the relevant information regarding the proposed central sewer, including the proposed rates, connection fees and the type of system intended for installation. Therefore, I request that EU's request for bifurcation and a temporary waiver be denied.

Sincerely,

Frank and Joann Guagliardo
