Subject: Docket #20200226-SU, Environmental Utilities, LLC application. Objection and request for listing as interested persons.

Dear Commissioners and Staff. We are residents of the Cape Haze community. We live at 15 Spyglass Alley in Placida, which is within the service area contained in the application from Environmental Utilities, LLC (EU) for central sewer.

We object to EU's request for the bifurcation of the certificate and rate-making proceedings and we object to the granting of a temporary waiver of Rule 25-30.033 (1)(p) and (q).

The applicant has provided no information as to its financial strength or management experience or the costs to the stakeholders covered by this project. There is no information to allow stakeholders to participate sufficiently in this process and no basis on which to make the decisions and approvals sought by the applicant.

As stakeholders in the proposed service area it is also important to have all of the relevant information regarding the proposed central sewer, including the proposed rates, fees and the systems intended for installation.

We further incorporate by reference the objections filed by William Dahms on behalf of the Cape Haze Property Owners Association.

We therefore request that EU's request for bifurcation and temporary waiver be denied.

We further request that you list us as interested persons on this docket. Please provide us with notice of informal meeting notices, FAW notices, all recommendations and final orders issued by the Commission. Our contact information is below.

Thank you for your consideration and for your service.
