RE: Docket No. 20200221-WS – Joint application for approval of transfer of majority organizational control of Ni Florida, LLC, holder of Certificate Nos. 388-W in Lee County and 104-S in Pasco County, to Florida Utility Systems, Inc.

AGENDA: 02/02/21 – Regular Agenda – Interested Persons May Participate

COMMISSIONERS ASSIGNED: All Commissioners

PREHEARING OFFICER: Brown

CRITICAL DATES: None

SPECIAL INSTRUCTIONS: None

Case Background

On September 28, 2020, Ni Pacolet Milliken Utilities, LLC (Ni Pacolet or Seller) and Florida Utility Systems, Inc., (FUSI or Buyer) filed a joint application for transfer of majority organizational control of Ni Florida, LLC (Ni FL or Utility) to FUSI. Ni FL is a Class A utility serving approximately 750 water connections in Lee County and 2,700 wastewater connections in Pasco County. Ni Pacolet is currently the sole owner of Ni FL, and FUSI is a wholly owned subsidiary of SouthWest Water Company.

The purchase agreement is structured as a purchase of 100 percent of the equity interests and is not an asset acquisition. As such, this application does not involve a transfer of the facilities or the land owned by Ni FL or occupied by the Ni FL systems, and Ni FL will continue to own or

Docket No. 20200221-WS

Date: January 21, 2021

lease the land on which its facilities are located. The transfer of majority organizational control of Ni FL by the purchase agreement is subject to Commission's approval, and according to the application, the closing will occur within 15 days after the Commission's vote approving the transfer.

The Commission has jurisdiction pursuant to Sections 367.071, Florida Statutes (F.S.).

Discussion of Issues

Issue 1: Should the application for transfer of majority organizational control of Ni FL in Lee and Pasco Counties from Ni Pacolet to FUSI be approved?

Recommendation: Yes. The transfer of majority organizational control from Ni Pacolet to FUSI is in the public interest and should be approved effective the date of the Commission vote. The resultant order should serve as the water and wastewater certificates, with the territories described in Attachment A. The Utility should file a notice of closing, in the docket file, within 15 days of the Commission's vote approving the transfer. The Utility's existing rates and charges should remain in effect until a change is authorized by the Commission in a subsequent proceeding. The tariff pages reflecting the transfer should be effective on or after the stamped approval date on the tariff sheets pursuant to Rule 25-30.475(1), Florida Administrative Code, (F.A.C.). (Doehling, D. Andrews, Sibley)

Staff Analysis: This application is for the transfer of majority organization control of Ni FL in Lee and Pasco Counties on the parent level from Ni Pacolet to FUSI. Based on staff's review, the application is in compliance with the governing statute, Section 367.071, F.S., and Rule 25-30.037(4), F.A.C., concerning applications for transfer of majority organizational control. As stated in the case background, the closing of the purchase agreement will occur within 15 days of the Commission's vote approving the transfer. As such, staff recommends Ni FL file a notice of closing, in the docket file, within 15 days of the Commission's vote approving the transfer.

Noticing and Territory

Ni FL provided notices of the application pursuant to Section 367.071, F.S., and Rule 25-30.030, F.A.C. No objection to the transfer was filed with the Commission, and the time for doing so has expired. The notices contained a description of the territory for Ni FL, which is appended to this recommendation as Attachment A.

Technical and Financial Ability

Pursuant to Rule 25-30.037(4)(c), F.A.C., the application contains statements describing the technical and financial ability of the Buyer to provide service. According to the application, the Buyer's parent company, SouthWest Water Company, is a nationwide utility with the resources, expertise, and managerial capabilities to successfully operate the Utility. In addition, there will be no change in the day-to-day operational management of the system.

The transfer application also states that the Buyer has sufficient financial assets to ensure the continuing operation of the Utility. Because the Buyer is a wholly owned subsidiary of its parent company, staff reviewed the financial statements of the parent company and recommends it has the financial capability to provide any necessary funding. The transfer application states that the parent of the Buyer will supply the necessary funding as needed. Based on the information above, staff recommends the Buyer has the technical and financial capability to provide service to the existing service territory.

Rates and Charges

The Utility's water and wastewater rates were last approved in a file and suspend rate case docket in 2016.¹ The rates were subsequently reduced, effective January 6, 2021, to reflect the expiration of amortized rate case expense associated with the rate case in 2016 as required by Section 367.0816, F.S.² The Utility also applied for and received approval of three price indexes and pass-through rate adjustments. In 2019, the Commission approved a revision of the wastewater service availability charges.³ The Utility's miscellaneous service charges, non-sufficient fund charges, and customer deposits for water and wastewater have been approved by the Commission in various other dockets.⁴ The Utility's existing rates and charges are shown on Schedule No. 1, which is attached to this recommendation. Rule 25-9.044(1), F.A.C., provides that, in the case of a change of ownership or control of a utility, the rates, classifications, and regulations of the former owner must continue unless authorized to change by this Commission. Therefore, staff recommends that the Utility's existing rates and charges remain in effect until a change is authorized by this Commission in a subsequent proceeding.

Conclusion

Based on the above, staff recommends that the transfer of majority organizational control from Ni Pacolet to FUSI is in the public interest and should be approved effective the date of the Commission vote. The resultant order should serve as the water and wastewater certificates, with the territories described in Attachment A. The Utility should file a notice of closing, in the docket file, within 15 days of the Commission's vote approving the transfer. The Utility's existing rates and charges should remain in effect until a change is authorized by the Commission in a subsequent proceeding. The tariff pages reflecting the transfer should be effective on or after the stamped approval date on the tariff sheets pursuant to Rule 25-30.475(1), F.A.C.

Issue 2: Should this docket be closed?

Recommendation: Yes. If the Commission approves staff's recommendation in Issue 1, this docket should be closed. (Osborn, Crawford)

Staff Analysis: If the Commission approves staff's recommendation in Issue 1, this docket should be closed.
