Comments:

Tampa Electric to seek 18% rate hike to pay for solar installations that will actually lower their fuel costs to generate power, thus, instead of raising our rates they should be lowering our rates.

BTW, Tampa Electric's net income in 2019 was \$316 million, an increase of \$22 million over 2018.

Please do the right thing and deny such a request to raise rates of your fellow citizens. Thank you.
