COMPLAINT INFORMATION

Complaint: Other Complaint against Tampa Electric Company  
Details:

Hello, this letter is in regards to the rate increase proposed by TECO Energy company. A nineteen percent increase by a company that has no competition will hurt all of us in the Tampa Bay region. I urge you to vote no on the increase and there are many reasons for this but one of the most important is our cost of living and housing which has gone up significantly. More and More people are finding it very difficult to make ends meet. Teco states the increase is for clean energy but they have already installed Solar all through the Balm area and off I-75. The sun provides a free source of energy and if anything rates should be going down not up. If the increases continue we will all go to solar power on our own accord. But for now solar is still expensive and not a great value for most homeowners. Thanks for considering my point of view.

Regards,

Richard Jordan
