TO:

Office of Commission Clerk

FROM:

Lynn M. Deamer, Chief of Auditing, Office of Auditing and Performance Analysis

RE:

Docket No.: 20210001-EI

Company Name: Duke Energy Florida, LLC

Company Code: EI801

Audit Purpose: A3a: Fuel Cost Recovery Clause

Audit Control No: 2021-007-2-1

Attached is the final audit report for the Utility stated above. I am sending the Utility a copy of this memo and the audit report. If the Utility desires to file a response to the audit report, it should send a response to the Office of Commission Clerk. There are no confidential work papers associated with this audit.

### <u>Purpose</u>

To: Florida Public Service Commission

We have performed the procedures described later in this report to meet the objectives set forth by the Division of Accounting and Finance in its audit service request dated January 7, 2020. We have applied these procedures to the attached schedules prepared by Duke Energy Florida, LLC in support of its 2020 filing for the Fuel and Purchased Power Cost Recovery Clause in Docket No. 20210001-EI.

The report is intended only for internal Commission use.

### Objectives and Procedures

#### General

#### **Definitions**

Utility refers to the Duke Energy Florida, LLC. FAC refers to the Fuel and Purchased Power Cost Recovery Clause.

#### Revenue

Objectives: The objectives were to determine the actual Kilowatt Hours (KWH) sold for the 12-month period December 31, 2020, and whether the Utility applied the Commission approved cost recovery factor to actual KWH sales for the FAC.

**Procedures:** We reconciled the fuel revenues reported in the 2020 FAC Filing to the Utility's monthly revenue reports and the general ledger. We recalculated 2020 fuel revenues using the KWH sold in the Utility's monthly revenue reports and the fuel factors authorized in the Utility's last FAC proceeding. A random sampling of residential and commercial customers' bills were recalculated to verify the use of the correct tariff rates. No exceptions were noted.

### **Expenses**

**Objectives:** The objectives were to review the expenses which the Utility has included in the FAC and determine whether those expenses were properly recoverable as required in Order No. 14546, issued July 8, 1985.

**Procedures:** We reviewed and sampled fuel expenses reported on supporting Schedules A-1 and A-2 and other supporting documentation to determine that the fuel expense included in the FAC Filing complied with the requirements set forth in Order No. 14546. No exceptions were noted.

Objective: The objective was to determine whether generation-related gains derived from non-separated wholesale energy sales were credited to the FAC Filing as set forth in Order No. PSC-2000-1744-PAA-EI, issued September 26, 2000.

**Procedure:** We calculated generation related gains from FAC Schedule A-6 to ensure the Utility complied with the Commission Order. No exceptions were noted.

**Objective:** The objective was to determine whether energy payments to qualifying facilities in Schedule A-8 are based on the appropriate standard offer or negotiated contract rate.

**Procedures:** We prepared a schedule accumulating total monthly KWH and total monthly fuel purchases for 2020 as reflected on FAC Schedule A-8 — Energy Payments to Qualifying Facilities. We traced all transactions on Schedule A-8 for the months of April and October to invoices and supporting documentation. No exceptions were noted.

Objectives: The objectives were to determine whether the amounts of gas storage expense recovered through the FAC for the gas storage facility for 2020 were calculated correctly and payments were made in accordance with the applicable contracts.

**Procedures:** We prepared a schedule for natural gas transportation and storage expense for 2020. We traced a sample of the transportation and storage expenses in the FAC Filing to supporting invoices and vendor contracts. No exceptions were noted.

### **Inventory**

**Objective:** The objective was to determine whether adjustments made to coal inventory due to the semi-annual coal inventory survey have been recorded as set forth in Order No. PSC-1997-0359-FOF-EI, issued March 31, 1997.

**Procedure:** We reviewed all documentation that supports the Utility's aerial survey calculations and recorded adjustments to coal inventory balances to determine compliance with the requirements of Order No.PSC-1997-0359-FOF-EI. No exceptions were noted.

#### Other

**Objectives:** The objectives were to review and verify payments made under the waterborne and rail transportation contracts.

**Procedures:** We reviewed the waterborne and rail coal transportation contracts. We traced the contract rates to our sample of the Utility's coal fuel expense and reconciled the contract rates to the invoices selected in our sample. No exceptions were noted.

**Objective:** The objective was to determine whether vendor rebates and refunds were credited by the Utility to its recoverable fuel costs.

**Procedures:** We obtained a summary of all 2020 refunds and demurrages. We traced all refunds and demurrages to the Fuel Ledger for correct disposition. No exceptions were noted.

Objectives: The objectives were to reconcile service hours, reserve shutdown hours, and unavailable hours for the Generating Performance Factor (GPIF) units as shown on the annual GPIF Filing with source documents and trace the differences to source documents.

**Procedures:** We obtained the Actual Unit Performance Data Forms for January – December 2020 from the GPIF Filing. We reconciled service hours, reserve shutdown hours and unavailable hours to the GPIF Filing using the Generating Data System for Bartow, Osprey, Hines 1, 2, 3, and 4. No exceptions were noted.

**Objective:** The objective was to reconcile the monthly coal and oil purchases reflected on Florida Public Service Commission (FPSC) Form 423 with the Schedule A-5, general ledger, vendor contract and source documentation.

**Procedures:** We reconciled the FPSC Form 423 for 2020 to the supporting Schedule A-5 of the Utility's FAC Filing. We reconciled the volumes, invoice price and transportation charges reflected on Form 423 to the supporting documentation obtained in conjunction with our sample of coal and oil fuel expense. No exceptions were noted.

### True-Up

**Objective:** The objective was to determine whether the Utility's True-Up and Interest Provision as filed on FAC Schedule A-2 was properly calculated.

Procedures: We traced the December 31, 2019, True-Up Provision to the Commission Order. We recalculated the True-Up and Interest Provision amounts as of December 31, 2020, using the Commission approved beginning balance as of December 31, 2019, the Financial Commercial Paper rates, and the 2020 FAC revenues and costs. No exceptions were noted.

### **Analytical Review**

Objective: The objective was to perform an analytical review of the Utility's FAC revenues and expenses to determine whether there were any material changes or inconsistencies in 2020 from previous years.

**Procedure:** We compared 2020 revenues and expenses to 2019 and 2018. No differences requiring follow-up investigation were noted.

## **Audit Findings**

None

## **Exhibits**
