Subject: Docket No. 20210015-EI - FPL Rate increase requests

Dear Commissioner

Florida Power & Light is asking for two rates hike in Florida. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that Floridians should have to pay a guaranteed return on equity of 11.5 percent which is significantly above the nations average and well above most investment vehicles; the crux being "guaranteed minimum."

Please decline this request and have FPL redraft a more reasonable proposal.

Thank you,

Victoria Stevens
