Good Afternoon,

We will be placing your comments below in consumer correspondence in Docket No. 20210015-EI and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Brian Schultz

Commission Deputy Clerk II
Florida Public Service Commission

Subject: Stop Rubber Stamping FPL Requests!

Dear Commissioner

Florida Power & Light is asking for the largest single rate hike in Florida history at a time when consumers are facing an increased cost of goods and services as we recover from the economic downturn caused by COVID-19. Increasing the cost of electricity is something you, the Public Service Commission, can control.

It is unconscionable to think that we should have to pay more for our electric service at a time like this. Rubber stamping an all-time high return on equity of 11.5 percent goes against helping struggling Floridians. Putting people over profits should come first. A guaranteed rate of 11.% profit is essentially a usury rate given the ten year note is 1.55% and seniors and other citizens are getting 0.25-0.50% on their savings and money market accounts. It is bad enough that they are a monopoly but this demand regarding Docket No. 20210015-EI is simply outrageous given the time we are in and still in a world wide pandemic which is far from over. The request by FPL is simply outrageous and not in line with anything economic

metric but greed. This is my opinion and I hope that a fair compromise of freezing of rates can be accomplished.

Now is not the time to give FPL what it wants; let's keep the public in Public Service Commission!

Thank you,

Peter Kosovsky
